DEFINITY® Enterprise Communications Server
Generic 2 and System 85
8434DX Voice Terminal
Quick Reference
555-104-768
Comcode 107985517

Refer to the procedures on this card to use the features on your 8434DX voice terminal. The features here are listed in alphabetical order. In the spaces provided, write in the feature access codes for your system. For more information about any of these features, see your system manager or refer to the DEFINITY® Generic 2 and System 85 8434DX Voice Terminal User’s Guide, 555-104-767.

USING THE SOFTKEYS
You can display any of the softkey features by pressing [Menu] and then the softkey below the feature abbreviation. If the feature you want to use is not on the bottom line of the screen, press [Next ➤] or [Prev ◀] until you see the feature you wish to access. When the feature is active, an arrow appears above the feature. (However, if the feature requires you to dial a telephone number or extension, such as Call Forwarding, you will temporarily see the digits you are dialing, rather than the arrow, above the feature name.)

CANCELLING FEATURES
In order to cancel or deactivate features, such as cancelling a LWC message or deactivating Send All Calls, you must be off-hook.
**ABBREVIATED DIALING (AD)**

### To program/reprogram an AD button

1. Pick up handset.
   
   **NOTE:** For speakerphone users, press a call appearance button or press **Speaker**.

2. Press softkey below **Prog**
   
   or Press **Program**
   
   or Dial AD Program access code __________.

3. Press selected AD button.

4. Dial outside number, extension, or feature access code you want to store (up to 24 digits).

5. Press selected AD button again.

6. Repeat Steps 3 through 5 to program additional buttons.

7. Hang up.

### To place an AD call

1. Pick up handset or press **Speaker**.

2. Press selected AD button.

### To program/reprogram an outside number, extension, or feature access code into a personal list

1. Pick up handset.
   
   **NOTE:** For speakerphone users, press a call appearance button or press **Speaker**.

2. Press softkey below **Prog**
   
   or Press **Program**
   
   or Dial AD Program access code __________.

3. Press **Personal List**
   
   or Dial AD Program access code __________.

4. Dial list item (1, 2, 3...).

5. Dial number you want to store (up to 24 digits).
   
   **NOTE:** You may also be able to use the softkeys to add special functions such as Pause, Mark, Wait, or Suppress into the programmed telephone numbers.

6. Press **#**.

7. Repeat Steps 4 through 6 to program additional items on the same list.

8. Hang up.
To place a call using an AD list button or access code

1. Press **Pers List** or **Grp List** or **Sys List** or Dial appropriate AD List access code:
   - Personal __________
   - Group __________
   - System __________

2. Dial desired list item (1, 2, 3...).
