POC and Acclaim telephone company information:

You may call the number on your phone (only if your service provider supports it) for more information on POC and Acclaim phone company services.

FCC and telephone company information:

FCC Part 5

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

As an energy efficient product, this equipment is designed to automatically power down after a period of non-use. To reset the equipment:

1. Press and hold the [OFF] button on the front panel for 10 seconds.
2. The phone will reboot and power up.

Warning: Do not use equipment that contains lithium-ion batteries if it has been exposed to fire or water.

Installing the batteries:

1. Remove the battery compartment lid located on the bottom of the phone.
2. Insert the batteries with the positive (+) and negative (-) poles oriented as shown.
3. Replace the battery compartment lid.

Connecting:

1. Insert the AC adapter into the AC adapter jack on the back of the phone.
2. Plug the other end of the AC adapter into a standard AC outlet.

Desk mounting:

1. Place the phone on a flat surface with the screen facing you.
2. Rotate the phone to the desired angle.
3. Secure the phone with screws.

Wall mounting:

1. Remove the wall mounting bracket from the back of the phone.
2. Mount the phone on the wall using screws.
3. Secure the phone with screws.

 sincos

Testing the batteries:

1. Press and hold the [TEST] button on the front panel for 10 seconds.
2. The phone will perform a battery test.
3. The battery test will display the battery level, and a message indicating whether the battery is good or bad.

License:

The base station is intended for use with the Emerson Model EM-08 Caller ID. The base station must be used with a compatible telephone and must be registered with the telephone company.

Care:

1. Clean the phone with a soft, dry cloth.
2. Avoid exposing the phone to extreme temperatures or humidity.
3. Do not use harsh chemicals or abrasive cleaners on the phone.
4. Avoid exposing the phone to water or moisture.

Warranty:

Emerson warrants this product to be free from defects in materials and workmanship under normal use for one year from the date of purchase. This warranty does not cover damage caused by misuse, abuse, or neglect. If the product is returned to Emerson for repair or replacement under this warranty, Emerson will repair or replace it with the same or comparable model, at Emerson's discretion. This warranty is non-transferable and is void if the product has been altered or modified in any way. This warranty is the exclusive remedy for the consumer and is in lieu of all other warranties, expressed or implied. Emerson shall not be liable for any incidental or consequential damages arising from the use or inability to use the product. Some states do not allow limitations on how long an implied warranty lasts, so the above limitation may not apply to you. For warranty service, contact Emerson at the number listed below.
