Information for Your Safety

WARNING:
TO REDUCE THE RISK OF FIRE, ELECTRIC SHOCK OR PRODUCT DAMAGE,
• DO NOT EXPOSE THIS APPARATUS TO RAIN, MOISTURE, DRIPPING OR SPLASHING AND THAT NO OBJECTS FILLED WITH LIQUIDS, SUCH AS VASES, SHALL BE PLACED ON THE APPARATUS.
• USE ONLY THE RECOMMENDED ACCESSORIES.
• DO NOT REMOVE THE COVER (OR BACK); THERE ARE NO USER SERVICEABLE PARTS INSIDE. REFER SERVICING TO QUALIFIED SERVICE PERSONNEL.

Carefully observe copyright laws. Recording of pre-recorded tapes or discs or other published or broadcast material for purposes other than your own private use may infringe copyright laws. Even for the purpose of private use, recording of certain material may be restricted.

A lithium ion/polymer battery that is recyclable powers the product you have purchased. Please call 1-800-8-BATTERY for information on how to recycle this battery.

THE SOCKET OUTLET SHALL BE INSTALLED NEAR THE EQUIPMENT AND SHALL BE EASILY ACCESSIBLE.

CAUTION
Danger of explosion if battery is incorrectly replaced. Replace only with the same or equivalent type recommended by the manufacturer. Dispose of used batteries according to the manufacturer's instructions.

Warning
Risk of fire, explosion and burns. Do not disassemble, heat above 60 °C (140 °F) or incinerate.

Marking sign is located on bottom of the unit.
THE FOLLOWING APPLIES ONLY IN THE U.S.A.

FCC Note: (U.S. only)
This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

FCC Caution: To assure continued compliance, follow the attached installation instructions and use only shielded interface cables with ferrite core when connecting to computer or peripheral devices.

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate this equipment.

Declaration of Conformity
Trade Name: Panasonic
Model No.: DMC-TZ2
DMC-TZ3

Responsible party: Panasonic Corporation of North America One Panasonic Way, Secaucus, NJ 07094

Support Contact: Panasonic Consumer Electronics Company 1-800-272-7033

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

THE FOLLOWING APPLIES ONLY IN CANADA

This Class B digital apparatus complies with Canadian ICES-003.
-If you see this symbol-

**Information on Disposal in other Countries outside the European Union**

This symbol is only valid in the European Union. If you wish to discard this product, please contact your local authorities or dealer and ask for the correct method of disposal.

---

**About the battery pack**

Battery pack (Lithium ion battery pack)
- Use the specified unit to recharge the battery pack.
- Do not use the battery pack with equipment other than the specified unit.
- Do not get dirt, sand, liquids, or other foreign matter on the terminals.
- Do not touch the plug terminals (+ and −) with metal objects.
- Do not disassemble, remodel, heat or throw into fire.

If any electrolyte should come into contact with your hands or clothes, wash it off thoroughly with water.
If any electrolyte should come into contact with your eyes, never rub the eyes. Rinse eyes thoroughly with water, and then consult a doctor.

---

**About the battery charger**

**CAUTION!**
DO NOT INSTALL OR PLACE THIS UNIT IN A BOOKCASE, BUILT-IN CABINET OR IN ANOTHER CONFINED SPACE. ENSURE THE UNIT IS WELL VENTILATED. TO PREVENT RISK OF ELECTRIC SHOCK OR FIRE HAZARD DUE TO OVERHEATING, ENSURE THAT CURTAINS AND ANY OTHER MATERIALS DO NOT OBSTRUCT THE VENTILATION VENTS.

---

**Battery charger**

This battery charger operates on AC between 110V and 240 V.
But
- In the U.S.A. and Canada, the battery charger must be connected to a 120V AC power supply only.
- When connecting to an AC supply outside of the U.S.A. or Canada, use a plug adaptor to suit the AC outlet configuration.

---

**Note**

Example screens displayed in this manual are for DMC-TZ3 model.
Quick start guide

The battery is not charged when the camera is shipped. Charge the battery and set the clock before use. When you do not use the card (sold separately), you can record or play back pictures on the built-in memory (P.26).

1. Charge the battery

2. Insert the battery and the card

3. Set the mode dial to 📸

4. Press the shutter button and take pictures

To play back the pictures

1. Set the mode dial to 🖼.
2. Select the picture you want to view.
Record, view, save those precious memories

Record

Before use

Read first

Do a test shot first!
- Check first to see if you can take pictures and record sounds (motion pictures/pictures with audio) successfully.

We will not compensate for failed/lost recording or for direct/indirect damage.
- Panasonic will not provide compensation even if damage is caused by faults with camera or card.

Certain pictures cannot be played back
- Pictures edited on a computer
- Pictures taken or edited on a different camera
  (Pictures taken or edited on this camera may also not be able to be played back on other cameras)

Software on the CD-ROM supplied
The following actions are prohibited:
- Making duplicates (copying) for sale or rent
- Copying onto networks

LCD monitor characteristics
Extremely high precision technology is employed to produce the LCD monitor screen. However there may be some dark or bright spots (red, blue or green) on the screen. This is not a malfunction. The LCD monitor screen has more than 99.99% effective pixels with a mere 0.01% of the pixels inactive or always lit. The spots will not be recorded on pictures on the built-in memory or a card.

To prevent damage and faults

Avoid shocks, vibration, and pressure
- Avoid exposing the camera to strong vibration or shock; e.g. dropping or hitting the camera, or sitting down with the camera in your pocket.
- Do not press the lens or the LCD monitor.

Do not get the camera wet or insert foreign objects
- Do not expose the camera to water, rain, or seawater.
  (If camera gets wet, wipe with a soft, dry cloth. Wring cloth thoroughly first if wet with seawater, etc)
- Avoid exposing lens and socket to dust or sand, and do not allow liquids to leak into gaps around buttons.

Avoid condensation caused by sudden changes in temperature and humidity
- When moving between places of different temperature or humidity, place camera into a plastic bag and allow to adjust to conditions before use.
- If the lens clouds up, switch off the power and leave for about two hours to allow camera to adjust to conditions.
- If the LCD monitor clouds up, wipe with a soft, dry cloth.

When transporting
- Switch off power.
  We recommend using a genuine leather case (DMW-CT3, sold separately).
Standard Accessories

Card accessoires (P.96)

Cards are optional. You can record or play back pictures on the built-in memory when you are not using a card. (P.26)

If any accessories are lost, customers in the USA should contact Panasonic’s parts department at 1 800 833-9626 and customers in Canada should contact 1 800 99-LUMIX (1-800-995-8649) for further information about obtaining replacement parts.

Optional accessories (P.96)

Do not touch the lens barrier, as this may damage your camera.

If lens is dirty
Images may appear slightly white if lens is dirty (fingerprints, etc). Turn the power on, hold the extracted lens barrel with your fingers, and gently wipe the lens surface with a soft, dry cloth.

Lens (P.12)
Do not leave in direct sunlight.

* DMC-TZ3 only
Charging battery

Always charge before first use! (not sold pre-charged)

1. Connect to charger.
   (Ensure ‘LUMIX’ faces outwards.)

2. Fold out pins and plug into electrical outlet.
   ● Disconnect charger and battery when charging is complete.

- Connect to charger.
- Fold out pins and plug into electrical outlet.

Charging light (CHARGE)
- On: Charging in progress (approx. 120 min.)
- Off: Charging complete
- If light is flashing...
  ● Battery temperature is too high/too low → Battery may still be charged, but it will take longer as it must adjust to the room temperature.
  ● Battery/charger connector is dirty → clean with dry cloth.

Approximate battery life

Number of pictures:
270 [300 \(^*1\)] (at 30-sec intervals) \(^*1\) (equivalent to approx. 135 [150 \(^*2\)] mins)

\(^*1\) Values based on CIPA standards. (P.91)

(Number reduced if intervals longer – 67 [75 \(^*2\)] pictures if 2-minute intervals)

Playback time: Approx. 260 [280 \(^*2\)] mins
Above figures may be reduced if intervals between recording are longer; if flash, zoom, or POWER LCD are used frequently; or in colder climates (depends on actual usage).

\(^*2\) DMC-TZ2

Note

- Battery will be warm during charging and for some time thereafter.
- Battery will run out if not used for long periods of time, even after being charged.
- Battery can be topped up even if not fully depleted.
- Do not disassemble or modify the charger.
- Please purchase a new battery if battery life becomes significantly reduced.
Inserting battery and card

1. Set the camera ON/OFF switch to OFF
2. Slide to the ‘OPEN’ position and open the lid
3. Completely insert battery and card (both click into place)
4. Close lid
   - Slide to the ‘LOCK’ position.

To remove
- To remove battery, move lever in direction of arrow.
- To remove card, press down in center.

Compatible memory cards (sold separately)
- The following SD standard-based cards (Panasonic brand recommended)
  - SD memory cards, 8MB-2GB
  - SDHC memory cards (4GB) → (P.96)
  - (4GB (or greater) cards without the SDHC logo are not of SD standard.)
  → For recording picture/time capacity, see (P.92)
  → For model numbers and types, see http://panasonic.co.jp/pavc/global/cs (This Site is English only.)
- MultiMediaCards (still images only)

Caution
- Always use genuine Panasonic batteries.
- If you use other batteries, we cannot guarantee the quality of this product.
- Do not remove card or battery while power is ‘ON’ or while status indicator is on
  (Camera may cease operating correctly, or card/recorded contents may be damaged).
- The reading/writing speed of a MultiMediaCard is slower than an SD memory card. When a
  MultiMediaCard is used, the performance of certain features may be slightly slower than advertised.
- Keep the Memory Card out of reach of children to prevent swallowing.
Setting the clock and language

Preparations

While this message is displayed

Press

Adjust year, month, date, time

Select

Adjust

Set

Press

Turn on power again and check time display.

Note

- Failure to set the clock will mean correct date will not be printed (P.76) when printing pictures in digital photo center or when using DATE STAMP (P.66).
- Time is displayed in 24-hour format. Year can be set between 2000 and 2099.
- Clock settings will be saved for approx. 3 months even after battery is removed, provided a fully-charged battery was installed in camera for the 24 hours beforehand.

- To change time setting
  Select ‘CLOCK SET’ from SETUP menu (P.18), perform 2 and 3 above, and press .

- To set local time at overseas destination
  ‘WORLD TIME’ (P.49)

- To set language
  Select LANGUAGE (P.22) from SETUP menu (P.20), and set to language displayed on the monitor.
  Example of SETUP menu setting (P.18)
Know the different menus to get more out of your camera

This camera contains a range of menus to enable you to set your photography and playback preferences, and to make the camera easier and more fun to use. The ‘SETUP’ menu in particular contains important functions, such as for time and power source. Please check these settings before use.

■ Making the camera more convenient to use (SETUP menu) (P.20)

- Make settings for ease of use such as adjusting the clock and changing the beep sounds.
- Applicable modes (P.13): 📷 🍃 🍃 SCN1 SCN2 🎁

■ Changing photography preferences (REC menu) (P.50)

- Make settings such as white balance, sensitivity, aspect ratio, and picture size.
- Applicable modes (P.13): 📷 🍃 🍃 SCN1 SCN2 🎁

(Screen example: DMC-TZ3)

■ Using your pictures (PLAY menu) (P.64)

- Make settings for using the pictures you have taken, including rotating, protecting, trimming, and handy settings for printing your pictures (DPOF).
- Applicable modes (P.13): 🎁

(Screen example: DMC-TZ3)

The following menus are also included:

■ To make photography settings to fit certain scenes, e.g. night
  → SCENE menu (P.40)

■ To easily change settings such as picture quality, for beginners
  → SIMPLE MODE menu (P.29)
Preparations

Using menus

Here is explained an example of changing the ‘POWER SAVE’ setting from ‘5 MIN.’ to ‘2 MIN.’ from SETUP menu. (‘POWER SAVE’ is a function to extend battery life by automatically turning the camera off if no operations are performed for a certain period.)

1. **Turn on the power**
   - **Zoom lever**
   - **OFF ON**

2. **Set to [ ]**

3. **Bring up the menu**
   - REC menu is displayed.
   - First page of three currently displayed. (Zoom lever can be used to scroll through pages.)

4. **Select SETUP menu**
   - Select [ ]

### Setup menu
- **Applicable modes:**
  - [ ]

### REC menu
- **Applicable modes:**
  - [ ]

### PLAY menu
- **Applicable modes:**
  - [ ]

● Numbers cannot be reset once folder number reaches 999. In this case, save all necessary pictures to your computer, and format the built-in memory/card. (P.73)
● To reset folder number to 100:
  First, format (P.73) the built-in memory or card, and reset the file numbers using NO. RESET. Then, select ‘YES’ on the folder number reset screen.

**RESET REC. SETTINGS? (YES/NO)  RESET SETUP PARAMETERS? (YES/NO)**

● Resetting SETUP parameters causes the following to be reset: Birthdays in BABY (P.42) and PET modes (P.44), ‘TRAVEL DATE’ (P.48), ‘WORLD TIME’ (P.49), ‘ZOOM RESUME’ (P.20), ‘FAVORITE’ in PLAY menu (set to ‘OFF’) (P.65), ‘ROTATE DISP.’ (set to ‘ON’) (P.66), CLIPBOARD menu (INITIAL DISP.) (set to ‘ON’) (P.60) (Only ‘BEEP’ is reset in the SIMPLE MODE menu.)
● Folder numbers and clock settings will not be reset.

**NTSC / PAL**

**16:9 / 4:3**

● When set to **16:9**, pictures will be displayed vertically long on LCD monitor when connecting AV cable (supplied) (P.79).

**OFF (use previously selected scene mode) / [AUTO] (displays scene menu)**

● To display scene menu when set to ‘OFF’: Press ‘MENU/SET’.

**OFF / [ON] (display)**

**ENGLISH / DEUTSCH (German) / FRANÇAIS (French) / ESPAÑOL (Spanish) / ITALIANO (Italian) / 中文 (Chinese) / 日本語 (Japanese)**

* Not displayed on DMC-TZ3P/DMC-TZ2P.
Taking pictures

1. Turn on the power
   - Status indicator illuminated for approx. 1 second.

2. Set to (NORMAL PICTURE mode)
   - Display on screen

3. Adjust the focus
   - Press halfway

4. Take a picture
   - Take care not to shake the camera.

- **Holding the camera**
  - Vertically:
    - Do not block the flash or the lamp (P.12). Do not look at them from close range.
    - Do not touch the lens.
    - Stand with your arms close to your body and with your legs apart.
  - Horizontally:

- **When (jitter alert) is displayed**
  - Use the Optical image stabilizer (P.39), a tripod, or the self-timer (P.35).

- **Focus range** (To take pictures from close range ➔ P.46)
  - When set to maximum W (1X): Distance of at least 50 cm (1.64 feet) from subject
  - When set to maximum T (maximum zoom): Distance of at least 2 m (6.56 feet) from subject

- **To use flash** (P.36)
Please set the clock before taking pictures (P.16).

### Adjusting the focus

Press the shutter button halfway, ensuring that the subject is aligned with the AF area.

- **Focus display**
  - In focus
  - Not in focus
  - Focus display: On *
  - AF area: Green
  - Red/white
  - Sound: Double beep
  - Multiple beep

*Images outside of the focus range may not be in full focus even if the light remains on.*

(If red: Could not achieve optimal exposure → Use flash (P.36) or change ‘SENSITIVITY’ (P.51).)

### Problems with adjusting focus (subject not in center, etc)

1. First adjust focus according to subject
2. Return to desired composition

- Readjust focus if not correctly adjusted initially.
- Subjects/environments which may make focusing difficult:
  - Fast-moving or extremely bright objects, or objects with no color contrast
  - Taking pictures through glass or near objects emitting light. In dark, or with significant jitter.
  - When too close to object or when taking pictures of both distant and close objects together in the same picture

### Checking remaining battery and memory capacity

- **Remaining battery**
  - (Status indicator flashes when LCD monitor is off)
  - Recharge or replace battery (P.14).
  - Not displayed when using AC adaptor (DMW-AC5PP, sold separately).
Pictures will be saved to a card [CARD] if one is inserted, or to the built-in memory [IN] if not.

**When in operation**

Card Built-in memory

When in operation, [CARD] and [IN] are illuminated red. This means that an operation is in progress, such as the recording, reading, or deleting of pictures. Do not turn off the power or remove the battery, card, or AC adaptor (DMW-AC5PP, sold separately) (this may cause damage to or loss of data).

- Pictures may be copied between cards and the built-in memory (P.73).
- It is recommended that you copy important pictures to your computer (as electromagnetic waves, static electricity, or faults may cause data to be damaged).

**Cards**

- Always format (P.73) cards in this camera before first use.
- If the switch on the card is set to ‘LOCK’, operations such as formatting, copying, and deleting cannot be performed.
- Compatible memory cards → (P.15)
- Recording picture/time capacity → (P.92)

**Built-in memory (approx. 12.7 MB)**

- Used as a temporary save destination when you have no card.
- May take longer to access than cards.
- Clipboard pictures (P.58) are saved to built-in memory.

**Recording picture capacity estimates (default settings)**

<table>
<thead>
<tr>
<th>Save destination</th>
<th>Built-in memory</th>
<th>memory card (Example)</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>12.7 MB</td>
<td>256 MB</td>
</tr>
<tr>
<td>Pictures (DMC-TZ3)</td>
<td>2</td>
<td>68</td>
</tr>
<tr>
<td>Pictures (DMC-TZ2)</td>
<td>3</td>
<td>81</td>
</tr>
</tbody>
</table>

The number of pictures that may be recorded varies greatly according to aspect settings (P.51), picture size (P.52), and quality (P.53) settings, in addition to the capacity of the card. (For more details: P.92)
Taking pictures with zoom

Subjects can be enlarged by ten times with ‘Optical zoom’ and up to 15 (13.8*) times with ‘Extended optical zoom’. ‘Digital zoom’ can then be used to multiply this effect by four times further. (28-280 mm: 35 mm film camera equivalent)

* DMC-TZ2

**Enlarge (Tele)**

<table>
<thead>
<tr>
<th>Type</th>
<th>Optical zoom</th>
<th>Extended optical zoom (EZ)</th>
<th>Digital zoom</th>
</tr>
</thead>
<tbody>
<tr>
<td>Max. enlargement</td>
<td>10x</td>
<td>15x<em>1, 13.8x</em>2, 13x<em>1 12.6x</em>1, 12x, 11.6x*2</td>
<td>40x (including optical zoom: 10x)</td>
</tr>
<tr>
<td>Picture quality</td>
<td>No loss</td>
<td>No loss</td>
<td>Deteriorates by factor of enlargement</td>
</tr>
<tr>
<td>Conditions</td>
<td>None</td>
<td>Select picture size (P.52) marked with [EZ]</td>
<td>‘D. ZOOM’ (P.56) set to ‘ON’ in REC menu</td>
</tr>
<tr>
<td>Screen display</td>
<td>[W]</td>
<td>[EZ] displayed</td>
<td>Displays digital zoom area</td>
</tr>
</tbody>
</table>

* DMC-TZ3 only, *2 DMC-TZ2 only (Zoom ratio depends on ASPECT RATIO and PICT.SIZE.)

**What is Extended optical zoom (EZ)?**

If, for example, set to ‘3M EZ’ (equivalent to 3 million pixels), a picture will only be taken of a 3M-sized central part of a 7M (equivalent to 7.2 million pixels) area, meaning that the picture can be enlarged further.

**Entering digital zoom area**

Once the bar stops before the digital zoom area, continue to hold the zoom lever, or release it once then push it again.

**To recall zoom ratio from time power was turned off** ‘ZOOM RESUME’ (P.20)

- The enlargement ratio displayed in the bar on screen is an estimate.
- Adjust the focus after adjusting the zoom.
- Do not block the lens barrel (P.12) movement while zooming.
- Zoom cannot be adjusted during motion picture recording.
- A greater degree of distortion may be generated by taking wider-angled pictures of close objects, while using more telescopic zoom may result in more coloring appearing around the outlines of objects.
- The camera may make a rattling noise and vibrate when the zoom lever is operated – this is not a fault.
- When using extended optical zoom, zoom movement may stop momentarily near maximum W (1x), but this is not a fault.
- The Optical image stabilizer may be less effective when using digital zoom. It is recommended that you use a tripod and the self-timer (P.35).
Taking pictures with SIMPLE MODE

1. Set to 🎧
2. Adjust the focus
3. Take a picture

The settings for the following functions are fixed.

<table>
<thead>
<tr>

Backlight compensation (SIMPLE MODE only)

Press 📸 Prevents subjects being dark when background is light.

- To cancel compensation: Press ▲ again.
- Using flash (FORCED FLASH ON) is recommended (P.36)
- Adjust using ‘EXPOSURE’ (P.38), except for in SIMPLE MODE.

Displayed when compensation is on.
This mode is designed for beginners to easily take pictures. Only major functions and menu items are displayed.

### ‘SIMPLE MODE’ menu

Use the menu to change settings such as picture quality and beep sounds.

#### 1. Display SIMPLE MODE menu

<table>
<thead>
<tr>
<th>SIMPLE MODE</th>

</tr>
<tr>
<td>CLOCK SET*3</td>
<td>Change the date and time (P.16)</td>
</tr>
</tbody>
</table>

*6M for DMC-TZ2 model. *2 Extended optical zoom (P.27) available. *3 Settings changes reflected in other modes.

- **Focus range**
  - Max. W: Distance of at least 5 cm (0.16 feet) from subject
  - Max. T: Distance of at least 1 m (3.28 feet) from subject

- **Flash can be set to ‘AUTO/RED-EYE’ or ‘FORCED OFF’ (‘FORCED FLASH ON’ or ‘FORCED OFF’ when using backlight compensation).**

- **Recording picture capacity (P.92)**

---

Flash lever

Max. T: Distance of at least 1 m (3.28 feet)

Max. W: Distance of at least 5 cm (0.16 feet)
Viewing your pictures instantly (REVIEW)

Picturess can be checked while still in a recording mode (📸 🎥 SCN1 SCN2 ❤️).

1. **Display picture**
   - Most recently taken picture will be displayed for about 10 seconds.
   - To close: Press ▼ or press the shutter button halfway.
   - To view previous/next picture: ◄►

2. **Enlarge picture (4x/8x)**
   - Current zoom position (displayed for 1 sec.)
     - Picture is enlarged as you turn zoom lever towards T.
     - To reduce zoom: Turn lever towards W side.
     - To move zoom position: ▲▼◄►

   - **To display portrait pictures vertically** (P.66)

**Deleting instantly**

1. **While picture is displayed**

2. **Select ‘YES’**

   - Highlight ‘YES’ in orange
   - **To delete several or all** (P.32)

**Note**

- Deleted pictures cannot be recovered.
- Motion pictures cannot be reviewed in this way. View in PLAYBACK mode (P.62).
5 Viewing your pictures  (Play)

When there is no card inserted, the pictures played back from the built-in memory. (Clipboard pictures can only be played back in CLIPBOARD mode (P.59).)

To fast-forward (rewind)
Hold down until the desired picture number is displayed
- Holding down increases the picture scroll rate.
- Cannot be used when using ‘REVIEW’ (P.30) or ‘Multi playback’ (P.61).

To enlarge (playback zoom)
Zoom ratio: 1x/2x/4x/8x/16x
- To reduce zoom: Turn lever towards W side
- Move zoom position: ▲▼◄►
- Enlarging picture will reduce display quality.

To playback as list  ➤  (P.61)
To display picture vertically  ➤  (P.66)
To print
- Using own printer:
  • Direct connection ➔ (P.76)  • Connection via computer ➔ (P.74)
- At photo shops ➔ Give card to shop assistant.
Deleting pictures

Set to PLAYBACK mode ( ). Pictures deleted will be from card if card is inserted, or from built-in memory if not. To delete clipboard pictures, set to CLIPBOARD mode ( ).

To delete 1 picture

1 While picture is displayed (P.31)

   FUNC

   Press

2 Select ‘YES’

   Highlight ‘YES’ in orange

To delete multiple (up to 50) or all pictures

1 FUNC

   Press twice

2 Select type of deletion

   • Skip to step 5 if selecting ‘ALL DELETE’

3 Select the pictures to delete (Repeat)

   Picture selected

   • To release: Press ▼ again

4 FUNC

   Press

5 Select ‘YES’

   Highlight ‘YES’ in orange

To cancel ➞

To cancel ‘ALL DELETE’ or ‘ALL DELETE EXCEPT ★’, press ‘MENU/SET’.

Note

• Deleted pictures cannot be recovered.
• Do not turn off the power during deletion.
• Use a sufficiently charged battery or an AC adaptor (DMW-AC5PP, sold separately).
• When deleting all pictures from built-in memory, pictures actually deleted differ according to mode.
  PLAYBACK mode ( ): All pictures in built-in memory, except clipboard picture
  If ‘FAVORITE’ (P.65) setting is ‘ON’, you can ‘ALL DELETE EXCEPT ★ (FAVORITE)’.
  CLIPBOARD mode ( ) : All clipboard pictures
• Pictures cannot be deleted in the following cases:
  • Protected pictures (P.69) (Release the protection before deleting)
  • Card switch is in ‘LOCK’ position.
  • Pictures not of DCF standard (P.90)
• May take time depending on number of pictures deleted.
Change between different LCD monitor displays, such as histograms.

### Display in PLAYBACK mode

- **Histogram**
  - Shows brightness of subject as graph, useful for exposure compensation (P.38), etc. (Display shown is an estimate.)
  - Histogram from time of recording is displayed in orange if different to histogram in playback, for example when recording with flash or in dark locations.
  - Histogram may differ between times of recording and playback, or from histograms made with image editing software.

- **Guide lines**
  - Reference for composition (e.g. balance) when recording.
  - ‘GUIDE LINE’ settings (P.20)

### Note

- Display cannot be changed during menu (P.17) display.
- In SIMPLE MODE, display can only be turned on and off.
- Histograms cannot be displayed in SIMPLE MODE (P.28), MOTION PICTURE mode (P.47), or CLIPBOARD mode (P.58).
Making LCD monitor easier to see

Make it easier to see the LCD monitor when taking pictures from high positions or in bright outdoor conditions.

1. Display ‘LCD MODE’
   - DISPLAY
   - LCD MODE
   - Hold down

2. Select mode
   - POWER LCD
   - Makes screen brighter than normal (for outdoor use).
   - HIGH ANGLE
   - Makes screen easier to see when taking pictures from high positions. (becomes harder to see from the front)
   - OFF: Normal

Note

- ‘HIGH ANGLE’ will be canceled when power is turned off (including POWER SAVE).
- Block out sunlight (with hand, etc) if reflection makes screen difficult to see.
- ‘HIGH ANGLE’ cannot be used in the following cases.
  - SIMPLE MODE
  - PLAYBACK mode
  - PRINT mode
  - During menu screen display
  - While reviewing pictures
- ‘POWER LCD’ will be deactivated if no operations are performed for 30 seconds while recording. (Brightness can be restored by pressing any button)
- Brightness/color of screen in ‘LCD MODE’ has no effect on pictures recorded.
Taking pictures with self-timer

This is also effective for correcting jitter when pressing the shutter button, by setting the self timer to 2 seconds.

1. Display ‘SELFTIMER’

2. Select time duration

   Displayed for approx. 5 sec.
   - Can also be selected with ◄.

3. Adjust focus
   - Focus will be automatically adjusted immediately before recording if shutter button is pressed fully here.

4. Take a picture
   - The self-timer indicator will flash, and the picture will be taken after the selected duration of time has elapsed.
   - To cancel while in operation: Press ‘MENU/SET’

Note
- This function cannot be used in the ‘UNDERWATER’ scene mode or in MOTION PICTURE mode.
- In some modes, only ‘2SEC.’ or only ‘10SEC.’ may be selected.
  SIMPLE MODE: ‘10SEC.’
  CLIPBOARD mode, SCENE mode ‘SELF PORTRAIT’: ‘2SEC.’
Applications (Record)

Taking pictures with flash

1. Display ‘FLASH’

2. Select the desired type

- Do not cover with hand. Do not look at from close range (few cm).
- Do not bring objects close (heat and light may damage object).

Types

<table>
<thead>
<tr>
<th>Type, operations</th>
<th>Uses</th>
</tr>
</thead>
<tbody>
<tr>
<td>AUTO Automatic ON/OFF</td>
<td>Normal use</td>
</tr>
<tr>
<td>AUTO/RED-EYE reduction Automatic ON/OFF Reduces red-eye</td>
<td>Taking pictures of subjects in dark places</td>
</tr>
<tr>
<td>FORCED FLASH ON Always on</td>
<td></td>
</tr>
<tr>
<td>FORCED FLASH ON/RED-EYE reduction (For ‘PARTY’ and ‘CANDLE LIGHT’ scene modes only (P.42)) Always on Reduces red-eye</td>
<td>Taking pictures with backlight or under bright lighting (e.g. fluorescent)</td>
</tr>
<tr>
<td>SLOW SYNC./RED-EYE reduction Automatic ON/OFF Reduces red-eye Slows shutter speed to take brighter pictures</td>
<td>Taking pictures of subjects against a nightscape (tripod recommended)</td>
</tr>
<tr>
<td>FORCED OFF Always off</td>
<td>Places where flash use is prohibited</td>
</tr>
</tbody>
</table>

- Two flashes are emitted when using red-eye reduction. Do not move until the second flash is over. Effects may vary depending on the person.
- Shutter speeds are as follows:
  - : 1/30-1/2000th
  - : 1/8 (changed by SLOW SHUTTER setting (P.56)) -1/2000th

Displayed for approx. 5 sec.

- Can also be selected with ➪.
Available types vary depending on the mode in use.

### Available types in each mode (default setting)

<table>
<thead>
<tr>
<th>Mode</th>
<th>SCENE MODE</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>![default setting]</td>
</tr>
<tr>
<td>![default setting]</td>
<td>![default setting]</td>
</tr>
<tr>
<td>![default setting]</td>
<td>![default setting]</td>
</tr>
<tr>
<td>![default setting]</td>
<td>![default setting]</td>
</tr>
<tr>
<td>![default setting]</td>
<td>![default setting]</td>
</tr>
<tr>
<td>![default setting]</td>
<td>![default setting]</td>
</tr>

<tr>
<td>![default setting]</td>
<td>![default setting]</td>
</tr>
<tr>
<td>![default setting]</td>
<td>![default setting]</td>
</tr>
<tr>
<td>![default setting]</td>
<td>![default setting]</td>
</tr>
</tbody>
</table>

- Cannot be used with MOTION PICTURE mode and scene modes, or.
- Flash settings may be changed when changing recording mode.
- Scene mode flash settings are restored to default when scene mode is changed.
- Only or may be selected when using backlight compensation (P.28).

### Focus range according to ISO sensitivity (‘SENSITIVITY’) (P.51) and zoom (P.27).

<table>
<thead>
<tr>
<th>Mode</th>
<th>AUTO</th>
<th>ISO100</th>
<th>ISO200</th>
<th>ISO400</th>
<th>ISO800</th>
<th>ISO1250</th>
</tr>
</thead>
<tbody>
<tr>
<td>Max. W:</td>
<td>Approx. 0.6-4.2 m (1.97-13.8 feet)</td>
<td>Max. W:</td>
<td>Approx. 0.6-1.6 m (1.97-5.25 feet)</td>
<td>Max. W:</td>
<td>Approx. 0.6-2.3 m (1.97-7.55 feet)</td>
<td>Max. W:</td>
</tr>
<tr>
<td>Max. T:</td>
<td>Approx. 1.0-2.8 m (3.28-9.19 feet)</td>
<td>Max. T:</td>
<td>Approx. 1.0-1.1 m (3.28-3.61 feet)</td>
<td>Max. T:</td>
<td>Approx. 1.0-1.5 m (3.28-4.92 feet)</td>
<td>Max. T:</td>
</tr>
</tbody>
</table>

- Edges of picture may become slightly dark if using flash at short distances without using zoom (close to max. W). This may be remedied by using a little zoom.

### Maximum ISO sensitivity (‘ISO LIMIT’) (P.51) and focus range when using Intelligent ISO (P.46).

<table>
<thead>
<tr>
<th>Mode</th>
<th>ISO400</th>
<th>ISO800/ISO1250</th>
</tr>
</thead>
<tbody>
<tr>
<td>Max. W:</td>
<td>Approx. 0.6-3.3 m (1.97-10.8 feet)</td>
<td>Max. W:</td>
</tr>
<tr>
<td>Max. T:</td>
<td>Approx. 1.0-2.2 m (3.28-7.22 feet)</td>
<td>Max. T:</td>
</tr>
</tbody>
</table>

### Note

- If flash is to be emitted, flash type marks (e.g. ) will turn red when shutter button is pressed halfway.
- No pictures may be taken if these marks (e.g. ) are flashing (flash is charging).
- Insufficient flash reach may be due to inadequately set exposure or white balance.
- Flash effect may not be fully achieved with high shutter speeds.
- Flash charging may take time if battery is low, or if using flash repeatedly.
- When using ECONOMY (P.20), LCD monitor is shut off while flash is charging.
Taking pictures with exposure compensation

Corrects exposure when adequate exposure cannot be obtained (if difference between brightness of object and background, etc). Depending on the brightness, this may not be possible in some cases.

1. Display ‘EXPOSURE’

2. Select a value

- ‘0’ (no compensation)

The compensation value is displayed on the bottom-left of the screen. (±1/3, etc)

AUTO BRACKET (DMC-TZ3 only)
Takes 3 pictures in succession, changing the exposure. After exposure compensation, the compensation value is as standard.

1. Display ‘AUTO BRACKET’

2. Select a value

- ‘0’ (no compensation)

Cannot be used with flash or when there is remaining capacity for only 2 more pictures.
When ‘AUTO BRACKET’ is set, is displayed on the left of the screen.
Canceled when the power is turned off.
Optical image stabilizer

Automatically detects and prevents jitter.
Settings cannot be changed in SIMPLE MODE (P.28) or in ‘SELF PORTRAIT’ (P.42) and ‘STARRY SKY’ (P.44) scene modes.

Hold down

Select mode

MODE1: Constant correction
(Monitor image stable, composition easy to determine)

MODE2: Correction at moment shutter button is pressed
(More effective than MODE1)

OFF: Pictures deliberately taken with no jitter correction

Cases where optical image stabilizer may be ineffective:
- Heavy jitter
- High zoom ratio (digital zoom: P.27)
- Fast-moving objects
- Indoors or in dark locations (due to low shutter speed)

To view jitter/movement detection demo screen
Extent of jitter and of subject movement are shown on graph. (Estimate)

Press
(Press again to close)

Recording and zoom cannot be performed during demo.
Automatic ISO sensitivity settings based on movement detection are only effective when using Intelligent ISO (P.46) and the ‘SPORTS’ (P.42), ‘BABY’ (P.42), and ‘PET’ (P.44) scene modes.
Use the movement detection demo with objects with contrasting coloring.
Taking pictures according to the scene

1. Set to ‘SCN1’ or ‘SCN2’
   - The same selection of 20 scenes is available for each.

2. Select scene
   - To see description of each scene: Select scene, and press ‘DISPLAY’.

SCN1 and SCN2

When using SCENE MODE, the camera remembers the previously selected scene. For example, if SCN1 is set to ‘NIGHT SCENERY’ and SCN2 is set to ‘NIGHT PORTRAIT’, you can easily switch between settings depending on whether or not there will be people in the picture.

- To enable pictures to be taken immediately (no automatic SCENE MENU display)
  ① Display SETUP menu (P.18)
  ② Select ‘SCENE MENU’ (P.22) and set it to ‘OFF’.

- To display scene menu: Press ‘MENU/SET’

Note

- Selecting a scene mode inappropriate for the actual scene may affect the coloring of your picture.
- Brightness may be adjusted using ‘EXPOSURE’ (P.38) (except in ‘STARRY SKY’ mode).
- Detailed settings can be made in REC menu (P.50).
  (Except in ‘SENSITIVITY’, ‘METERING MODE’, and ‘COL. MODE’)
  Certain settings cannot be made for some scenes.
- ‘W. BALANCE’ can be set to the following.
  (Setting is restored to ‘AWB’ when scene is changed.)
- The types of flash available (P.36) vary according to the scene.
  The scene mode flash setting is reset to the initial setting when the scene mode is changed.
Using SCENE MODE enables you to take pictures with optimum settings (exposure, coloring, etc) for given scenes.

### Scene types

<table>
<thead>
<tr>
<th>Scene Type</th>

<td>SENSITIVITY: ISO LIMIT: ISO400 (Same as Intelligent ISO mode (P.46)) Digital zoom: Cannot be set</td>
</tr>
</tbody>
</table>
### Taking pictures according to the scene

**Scene** | **Uses, functions**
---|---
BABY | Date of birth will be displayed as ‘0 month 0 day’. To reset: Select ‘RESET’ from SETUP menu (P.22).
PET | Record pet’s age when taking pictures. Settings method same as for ‘BABY’ (P.42-45).
SUNSET | Take clear pictures of scenes such as sunsets.
HIGH SENS. | Prevents blurring of subject in dark, indoor conditions. Pictures may appear slightly grainy due to high sensitivity.
STARRY SKY | Take clear pictures of starry skies or dark subjects. Shutter speed settings
| ① Select with ▲▼, and press ‘MENU/SET’. | ② Press shutter button.
| Set longer shutter speeds for darker conditions. | Countdown begins
FIREWORKS | Take clear pictures of fireworks in the night sky. Shutter speed can be set to 1/4 second or 2 seconds (if little jitter or if optical image stabilizer is ‘OFF’). (when not using exposure compensation)
BEACH | Bring out the clear blues of the sky and the sea without darkening subject.
SNOW | Bring out the natural color of the snow in ski slope and mountain scenes.
AERIAL PHOTO | Take pictures of the view from aircraft windows.
UNDERWATER | Achieve natural colors under water. Always use marine case (DMW-MCTZ3, sold separately).

</tr>
<tr>
<td>●Angle the camera towards areas of contrasting colors when aligning the focus. ●Check that the interior of the aircraft is not reflected in the window.</td>
<td>FLASH: FORCED OFF AF ASSIST LAMP: OFF</td>
</tr>
<tr>
<td>●For fast moving subjects, align with the AF area and press ◄ (AF lock). Press ◄ again to release. ●Adjust red and blue levels with ‘white balance fine adjustment’ (P.50). ●Focus: Max. W: 5 cm (0.16 feet) and above Max. T: 1 m (3.28 feet) and above</td>
<td>Self-timer: Cannot be used</td>
</tr>
</tbody>
</table>
Avoiding subject blurring in darker conditions or with fast-moving subjects

Detects movement of the subject and sets the optimum ISO sensitivity and shutter speed according to the brightness.

1. Set to 
2. Take a picture (P.24)

- For moving subjects indoors…
- sensitivity and shutter speed raised to avoid subject blurring.

- For stationary subjects indoors…
- sensitivity lowered to avoid interference.

- The maximum level for ISO sensitivity can also be set (P.51, ‘ISO LIMIT’). If the maximum level is set to ‘800’ or ‘1250’, this will be reduced to ‘640’ when using the flash.
- Subject movement may not be detected if subject is too small, is at the edge of the screen, or starts to move at the same time as the shutter. (when button is pressed fully).
- Blurring may occur depending on the brightness and movement speed.
- ‘D.ZOOM’ (P.27) and ‘SLOW SHUTTER’ (P.56) cannot be used.

Focus range in Intelligent ISO mode, MACRO mode

Max. W: Distance of at least 5 cm (0.16 feet) from subject

Max. T: Distance of at least 1 m (3.28 feet) from subject (displayed)
(2 m (6.56 feet) unless max. T)

Taking close-up pictures of flowers, etc

1. Set to 
2. Take a picture (P.24)

- We recommend using a tripod, the self-timer (P.35), and flash ‘FORCED OFF’ (P.36).
- Moving the camera after aligning the focus is likely to result in poorly focused pictures if subject is close to camera, due to margin for focus alignment being severely reduced.
- Resolution may be reduced around the edges of the picture.

Taking close-up pictures from more distant locations (Tele Macro function)
Zoom to max. T to take close-up pictures of flowers at foot-level, or animals that you cannot approach, from distances of at least 1 m (3.28 feet). Align focus after zooming by pressing shutter halfway. Using tripod is recommended as jitter occurs easily.
Taking motion pictures

Record motion pictures and sound (motion pictures cannot be recorded without sound).

1. Set to \[ \text{ \textbullet } \]

2. Start recording

   - Press halfway (align focus)
   - Press fully

3. Finish

   - Press fully

   - Ends automatically if memory is full.

### Estimated recording time

(P.92)

### Note

- Zoom and CONT.AF (P.55) functions cannot be used during movie recording.
- Not compatible with MultiMediaCards.
- STABILIZER ‘MODE2’ cannot be used.
- Focus range is 5 cm (0.16 feet) and above for max. W/1 m (3.28 feet) and above for max. T. (2 m (6.56 feet) unless max. T)
- Focus, zoom, and a perture value are fixed from the onset of recording.
- A maximum of approx. 2 GB can be recorded in any one session. To continue recording, press the shutter button again. Available recording time is calculated on a 2 GB basis (estimated).
- Recording may be terminated midway, depending on card type.

### Aspect and picture quality

Set ‘ASPECT RATIO’ (P.51) before ‘PICT.MODE’ (P.52).

<table>
<thead>
<tr>
<th>ASPECT</th>
<th>PICT.MODE</th>
<th>Picture size</th>
<th>Frames/sec</th>
</tr>
</thead>
<tbody>
<tr>

<td>30/sec</td>
</tr>
<tr>
<td></td>
<td>10fps 16:9</td>
<td></td>
<td>10/sec</td>
</tr>
</tbody>
</table>

‘30fps’: for smooth picture movement
‘10fps’: for longer motion pictures

* We recommend using a card of at least 10MB/s (as marked on its packaging, etc).

- Only QVGA-format motion pictures can be recorded to the built-in memory.
Useful features for travel
(TRAVEL DATE, WORLD TIME)

Recording holiday duration (TRAVEL DATE)

1. Select ‘TRAVEL DATE’ from SETUP menu (P.18, 20)

2. Select ‘SET’

3. Set departure date

4. Set return date

Exit without entering if you do not wish to set a return date.

Note

- To stop date recording, select ‘OFF’ in step 2.
- When destination is set in ‘WORLD TIME’ (see right), days elapsed are calculated based on local destination time.
- If settings are made before holiday, number of days to departure are displayed in orange with a minus sign (but not recorded).
- When TRAVEL DATE is displayed in white with a minus sign, the ‘HOME’ date is one day in advance of the ‘DESTINATION’ date (this is recorded).
- To print number of elapsed days:
  - Activate ‘DATE STAMP’ (P.66) before printing.
  - Use the supplied software (P.11).
Record holiday day number or local time at overseas destination. Can be displayed during playback or stamped onto picture. (P.66)

Clock must be set in advance (P.16).

Registering local time at your overseas destination (WORLD TIME)

1. Select ‘WORLD TIME’ from SETUP menu (P.18,20)
   - ‘PLEASE SET THE HOME AREA’ will be displayed when setting for the first time. In this case, press ‘MENU/SET’ and skip to step 3.

2. Select ‘HOME’

3. Set your home area
   - Current time
   - City/area name
   - Difference with GMT (Greenwich Mean Time)
   - If setting for second (or later) time, press ►.

4. Select ‘DESTINATION’
   - Area settings can be aborted by pressing FUNC in steps 3 or 5.

5. Set destination area
   - Current time at selected destination
   - City/area name
   - Difference with home time
   - If actual destination is unavailable, select based on ‘difference with home time’.

6. Finish

To set/release summer time

Upon your return ➔ Go through steps 1, 2, 6, and press ‘MENU/SET’ to finish.

Clock settings (P.16) will not be changed even if home summer time is set.

Pictures recorded when set to destination will be displayed with  in PLAYBACK mode.
Applications
(Record)

Using REC menu

• REC menu settings (P.18)
• Default setting outlined:
• ‘Quick setting’ (P.57) is useful to easily call up frequently-used menus.

![REC menu settings table]

**WB W.BALANCE**

The same color may appear more blue or more red depending on the light source (sun, lamps, etc). Colors can be adjusted to their natural appearance by adjusting the white balance.

**Applicable modes:** 📷 📸 SCN1 SCN2 🥤

**Settings:** [AWB] (automatic) / ☀️ (outdoor, clear sky) / 🌦️ (outdoor, cloudy sky) / ☁️ (outdoor, shade) / 🕯️ (incandescent lighting) / 🔥 (uses value set in [SET]) / [SET] (set manually)

• ‘AWB’ operational range: 🌈 (‘AWB’ sets the optimum white balance automatically.)

10000K: Blue sky
9000K: Cloudy sky (rain)
8000K: Shade
7000K: TV screen
6000K: Sunlight
5000K: White fluorescent lighting
4000K: Incandescent lighting
3000K: Sunset/sunrise
2000K: Candlelight
1000K: Candlelight

• ‘AWB’ may not function normally in certain conditions, such as under red (e.g. candlelight), blue (e.g. TV screen), or a mixture of light sources, or with an absence of any color close to white.

We recommend setting to ‘AWB’ or ‘[SET]’ when under fluorescent lighting.

**Setting white balance manually ([SET])**

1. Select [SET] and press ‘MENU/SET’.
2. Point the camera towards a white object (e.g. paper) and press ‘MENU/SET’.
   (Or press shutter button halfway.)

Making this setting will reset white balance fine adjustment (see below).

**White balance fine adjustment (excluding ‘AWB’)**

1. Press ▲ several times until ‘WB ADJUST.’ is displayed.
2. Adjust with ► if reds are strong, adjust with ◀ if blues are strong.
3. Press ‘MENU/SET’ (or press shutter button halfway).

Only takes image of white objects within frame (step 2)

Changes to red (blue) when making fine adjustment

50 VQT1B61
Detailed settings can be made for recording, such as coloring, sensitivity, aspect ratio, and picture size. Items vary depending on mode.

- ‘’, ‘’, ‘’, ‘’, and ‘’ can be adjusted independently.
- Settings are remembered even if power is turned off.
- Settings remain applied when using flash photography.
- Even though the ‘AWB’ setting is fixed in ‘UNDERWATER’ scene mode (P.44), fine adjustments may still be made.
- Fine adjustments cannot be made when ‘COL.MODE’ (P.57) is set to ‘COOL’, ‘WARM’, ‘B/W’, or ‘SEPIA’.

### ISO SENSITIVITY

Set sensitivity to lighting. We recommend higher settings to take clear pictures in darker locations.

**Applicable modes: **

**Settings:**
- **AUTO** (automatic) / 100 / 200 / 400 / 800 / 1250
- **AUTO:** Automatically set with range up to 200 (640 when using flash) according to brightness.
- **maximum ISO sensitivity (‘ISO LIMIT’)** can be set when using mode.
- **Setting guide**

<table>
<thead>
<tr>
<th>SENSITIVITY</th>
<th>100 ← ― ← 1250</th>
</tr>
</thead>
<tbody>
<tr>
<td>Location (recommended)</td>
<td>Bright (outdoors) ← ― ← Dark</td>
</tr>
<tr>
<td>Shutter speed</td>
<td>Slow ← ― ← Fast</td>
</tr>
<tr>
<td>Interference</td>
<td>Low ← ― ← High</td>
</tr>
</tbody>
</table>

### ASPECT RATIO

Aspect ratio of picture can be changed according to printing or playback format.

**Applicable modes: **

**Settings:**
- **4:3**
- **3:2** (Still pictures only)
- **16:9**

- Edges may be cut off when printing – be sure to check in advance (P.88).
Set picture quality for motion pictures (P.47).

**Applicable modes:**

**Settings:**

Aspect ratio

<table>
<thead>
<tr>
<th>Shape</th>
<th>Setting</th>
</tr>
</thead>
<tbody>
<tr>
<td>4:3</td>
<td>30fps VGA / 10fps VGA / 30fps QVGA / 10fps QVGA</td>
</tr>
<tr>
<td>16:9</td>
<td>30fps 16:9 / 10fps 16:9</td>
</tr>
</tbody>
</table>

*30fps*: smoother movement; *10fps*: longer recording time

Set size of picture. Number of pictures which can be recorded depends on this setting and on ‘QUALITY’ (see right). (P.92)

**Applicable modes:**

**Settings:**

<table>
<thead>
<tr>
<th>ASPECT RATIO</th>
<th>Picture size</th>
</tr>
</thead>
<tbody>
<tr>

</tr>
</tbody>
</table>

Picture sizes for DMC-TZ2 model are as follows.

*1: 6M (2816 x 2112) *2: None *3: 6M (2976 x 1984) *4: 5.5M (3072 x 1728)

Extended optical zoom (P.27) can be used for picture sizes indicated with 

is not displayed in the ‘HIGH SENS.’ scene mode (P.44) (as extended optical zoom cannot be used).

Mosaic effect may appear depending on subject and recording conditions.
QUALITY

Set compression ratio for saving. Number of pictures which can be recorded depends on this setting and on ‘PICT.SIZE’ (see left). (P.92)

Applicable modes:  📸  📹  🍃 SCN1 SCN2

Settings:

Fine (priority to picture quality)
Standard (increases recording capacity by limiting standard picture size and picture quality)

AUDIO REC.

Sounds can also be recorded with pictures. This is useful for conversation or memo recording.

Applicable modes:  📸  📹  🍃 SCN1 SCN2

Settings:

OFF : No sound recording
ON : Record approx. 5 seconds of sound ( 🎧 displayed on screen)

To cancel recording: Press ‘MENU/SET’.

Cannot be used with ‘BURST’ (P.54), ‘STARRY SKY’ (P.44) and ‘AUTO BRACKET’ (P.38, DMC-TZ3 only).

‘DATE STAMP’, ‘RESIZE’, ‘TRIMMING’, and ‘ASPECT CONV.’ cannot be used with pictures with audio.

Settings also reflected in ‘AUDIO REC.’ (P.60) in REC ON CLIPBOARD menu.

METERING MODE

Method of measuring exposure (P.38) can be changed.

Applicable modes:  📸  📹  🍃  🍃

Settings:

Multiple: Measures brightness of whole screen. Normally recommended
Center weighted: Measures entire picture evenly, with focus on center of screen
Spot: Measures subject within spot metering target

Spot metering target
AF MODE

Method of aligning focus can be changed according to position and number of subjects.

- **Applicable modes:** 📸 🎨 SCN1 SCN2 📃

- **Settings:** 📸 / 📸 / 📸 / 📸 / 📸 (H: High-speed focus)
  - Subject not in center of picture (AF area displayed after focuses completely aligned)

  - **9-area-focusing**
    - Automatically focuses on any of 9 points

  - **AF area**

- Determined position for focus
  - **1-area-focusing** (High speed)
  - **1-area-focusing**
    - Focuses on AF area in center of picture. (Recommended for when focus is difficult to align)

  - **AF area**

- When using 📸 or 📸, picture may freeze momentarily before focus is aligned.
- AF area becomes larger in dark locations or when using digital zoom, etc.

- **Spot-focusing**
  - Focuses on smaller, limited area.

  - **Spot AF area.**

- Use 📸 or 📸 if focus is difficult to align with 📸.

BURST

Enables a rapid succession of photographs to be taken. Succession of photographs taken while shutter button is held down.

- **Applicable modes:** 📸 🎨 SCN1 SCN2
Settings:

<table>
<thead>
<tr>
<th>BURST setting</th>
<th>Speed *1</th>
<th>No. of pictures *2</th>
</tr>
</thead>
<tbody>
<tr>
<td>OFF</td>
<td>No burst</td>
<td></td>
</tr>
<tr>
<td>(High speed) *3</td>
<td>3 pictures/sec</td>
<td>Fine: Max. 5</td>
</tr>
<tr>
<td>(Low speed) *3</td>
<td>2 pictures/sec</td>
<td>Standard: Max. 7</td>
</tr>
<tr>
<td>*3, *4 (Free)</td>
<td>Approx. 2 pictures/sec *5</td>
<td>Until card/built-in memory is full</td>
</tr>
</tbody>
</table>

*1: Depends on shutter speed and ‘SENSITIVITY’ settings.
*2: When using self-timer: Fixed at 3 pictures
*3: DMC-TZ3 only.  *4: DMC-TZ2 only.
*5: DMC-TZ3: Becomes progressively slower. (Delayed timing depends on card type, picture size, and QUALITY.)
  DMC-TZ2: Depends on type of card, ‘PICT.SIZE’ (P.52), and ‘QUALITY’ (P.53).

Burst speed may be reduced if using SENSITIVITY (P.51) of ‘ISO400’ or greater, or if shutter speed is reduced in darker locations.

This feature cannot be used with the flash (flash mark turns red, P.36) or with ‘AUTO BRACKET’ (P.38, DMC-TZ3 only).

Settings will be stored even if power is turned off.

Focus is fixed from first picture.

Exposure and white balance are set as follows:

● DMC-TZ3
  High speed: Setting fixed from first picture.
  Low speed, Free: Reset for each picture.

● DMC-TZ2
  Reset for each picture.

When using BURST while following a moving subject in locations with major differences in brightness (e.g. indoor to outdoor), exposure stabilization may require a little time, and optimal exposure may not be achieved.

Auto review performed regardless of ‘AUTO REVIEW’ setting.

**CONT.AF**

Focus is continually adjusted according to movement of subject.

(Increases battery consumption)

**Applicable modes:** 📷 🎥 SCN1 SCN2 

**Settings:**

**OFF**: Not set  **ON**: Set (**CAF** displayed on screen)

Focus alignment may take time if zoom is suddenly changed from max. W to max. T, or if suddenly moving closer to subject.

Press shutter button halfway if focus is difficult to align.

When using [++]=H, [ ], or [ ] ‘AF mode’, focus will be aligned quickly when shutter button is pressed halfway.

Focus is not re-adjusted during motion picture recording.
**AF* AF ASSIST LAMP**

Illuminates lamp when dark to facilitate focus alignment.

- **Applicable modes:** 📸 📸 🌾 SCN1 SCN2

- **Settings:**
  - **OFF** : Lamp off (taking pictures of animals in dark, etc)
  - **ON** : Lamp illuminated with halfway press of shutter button (AF* and larger AF area displayed)

- Do not cover or look at lamp from close range
- Fixed to ‘ON’ when using SIMPLE MODE 🌾.
- Effective distance: 1.5 m (4.92 feet)

---

**SLOW SLOW SHUTTER**

Shutter speed can be reduced further to take bright pictures in dark locations.

- **Applicable modes:** 📸 🌾 SCN1 SCN2

- **Settings:** 1/8- (normally recommended) / 1/4- / 1/2- / 1-
  - Slower shutter speeds allow for brighter pictures but increase risk of jitter, so we recommend using a tripod and the self-timer (P.35).
  - Can be used with NIGHT PORTRAIT (P.42) to brighten both night scene and subjects.
  - **SLOW** displayed on screen for settings other than ‘1/8-’.

---

**D.ZOOM**

Multiplies effect of optical zoom or extended optical zoom by up to 4 times. (P.27).

- **Applicable modes:** 📸 🌾 SCN1 SCN2

- **Settings:** **OFF** : (Do not use) / **ON** : (Use)
  - This cannot be set when using SIMPLE MODE 🌾, Intelligent ISO mode 🌾, or the ‘SPORTS’, ‘BABY’, ‘PET’, or ‘HIGH SENS.’ scene modes.
**COL. MODE**

Set color effects.

- **Applicable modes:** 📸 🎥 🎧 🎤

- **Settings:** 📸 STANDARD / NATURAL (soft) / VIVID (sharp) / COOL (more blue) / WARM (more red) / B/W / SEPIA

  - If interference is noticeable in dark locations: Set to ‘NATURAL’.
  - MOTION PICTURE mode: ‘NATURAL’ and ‘VIVID’ cannot be selected.
  - White balance fine adjustment cannot be used when using ‘COOL’, ‘WARM’, ‘B/W’, or ‘SEPIA’.
  - Settings for still pictures and motion pictures are made separately.

**CLOCK SET**

Set the clock. Same function as that in SETUP menu (P.16).

---

**Quick setting**

The following items can be quickly called up from REC menu.

- Items vary depending on mode.
  - BURST (P.54)
  - W.BALANCE (P.50) (excluding SET)
  - SENSITIVITY (P.51)
  - ASPECT RATIO (P.51)
  - PICT.SIZE (P.52)
  - QUALITY (P.53)

1. Set to one from ‘📸 🎥 🎧 SCN1 SCN2 📦’.

2. Display ‘Quick setting’

3. Select item

4. Select setting
Taking clipboard pictures (clipboard recording)

1. Set to 

2. Select ‘REC’

3. Take a clipboard picture

- Press halfway (align focus)
- Press fully (take picture)

- Represents built-in memory used entirely for clipboard pictures

<table>
<thead>
<tr>
<th>Picture size</th>
<th>1M</th>
<th>2M</th>
</tr>
</thead>
<tbody>
<tr>
<td>Pictures</td>
<td>36</td>
<td>24</td>
</tr>
</tbody>
</table>

Recording capacities above are reduced if pictures are recorded to built-in memory (P.26) in other recording modes (e.g. ‘’).

- To view clipboard pictures (clipboard playback): [ ] (P.60)
- To change picture size → (P.60)

- Functions unavailable: BURST, D.ZOOM, AUTO BRACKET (DMC-TZ3 only), WB ADJUST, CONT.AF
- The settings for the following functions are fixed.
  - ASPECT RATIO: 4:3
  - QUALITY: 
  - SELF TIMER: OFF/2SEC.
  - SENSITIVITY: AUTO
- Functions other than those above are the same as fixed in SIMPLE MODE (P.28).
  (However, STABILIZER (P.39) settings may be made.)
- If internal memory is full
  - Delete unwanted clipboard pictures in PLAY ON CLIPBOARD mode.
    (Copy required pictures onto card → P.60)
  - Remove card and use PLAYBACK mode [ ] to delete pictures from other recording modes (e.g. ‘’).
  - Beware of copyrights, etc (P.2)
Useful for taking pictures of timetables and maps instead of taking memos. Regardless of presence of card, pictures will always be saved to clipboard folder of built-in memory, so that they can be distinguished from normal pictures and viewed immediately.

**Viewing clipboard pictures** (clipboard playback)

Select ‘PLAY’ in step 2 on left

- **View 1 picture at a time**
  - Previous
  - Next

- **View 9 pictures on screen**
  - W Turn to W side
  - T Turn to T side
  - Select a clipboard picture and press ‘MENU/SET’ to display single screen.

- **To zoom in (playback zoom)** (P.31)
  - Expand
  - Change position

- **To register zoom enlarged size and position (Zoom mark):**
  - Useful for enlarging and saving parts of maps, etc.
  - After selecting enlarged size and position

- **To change zoom and position:** Repeat the above
- **To finish zoom mark setting:** Restore zoom to original (normal) ratio

- **To view registered ratio and position:**
  - (No need to manually enlarge or move)

- **To delete clipboard pictures** (P.32)
  - Both original picture and picture with zoom mark will be deleted.
  - Picture can be deleted even while zoomed in.

**Note**

- During clipboard recording: Press shutter button halfway. ()
- PLAY menu (P.64) functions cannot be used.
  - Pictures taken in other recording modes, modified with ROTATE (P.66) and copied (P.73) as clipboard pictures will be displayed in their original form (before rotation).
- Printing (P.76) cannot be performed during clipboard playback.
Applications (Record) 12 Taking/viewing clipboard pictures (Continued)

CLIPBOARD menu

Press ‘MENU/SET’ while recording or viewing to display menu.

■ REC ON CLIPBOARD menu

Select item

<table>
<thead>
<tr>
<th>RECORD ON CLIPBOARD</th>

</thead>
<tbody>
<tr>
<td>▶️ GO TO PLAY</td>
</tr>
<tr>
<td>📚 PICT.SIZE</td>
</tr>
<tr>
<td>🔊 AUDIO REC.</td>
</tr>
<tr>
<td>🏷 INITIAL DISP.</td>
</tr>
<tr>
<td>✋ CLOCK SET</td>
</tr>
</tbody>
</table>

Default setting: 

- **GO TO PLAY**: View clipboard pictures.
- **PICT.SIZE**: Change picture size. *(2M EZ / 1M EZ)*
  Select picture size with ▲▼ and press ‘MENU/SET’.
- **AUDIO REC.**: Record sound (5 seconds) simultaneously. *(OFF / ON)*
  Select setting with ▲▼ and press ‘MENU/SET’.
  Settings will also be reflected in ‘AUDIO REC.’ (P.53) in REC menu.
- **INITIAL DISP.**: Select to display/not display initial display (P.58).
  *(OFF / ON)*
  Select setting with ▲▼ and press ‘MENU/SET’.
- **CLOCK SET**: Same function as that in SETUP menu (P.16).

■ PLAY ON CLIPBOARD menu

Select item

<table>
<thead>
<tr>
<th>PLAY ON CLIPBOARD</th>
</tr>

<tr>
<td>📚 COPY</td>
</tr>
<tr>
<td>🏷 INITIAL DISP.</td>
</tr>
</tbody>
</table>

- **GO TO REC**: Take clipboard pictures.
- **CANCEL MARK**: Cancel zoom position.
  ① Select clipboard picture with ◀▶.
  ② Cancel with ▼.
- **AUDIO DUB.**: Add sound to previously-taken clipboard picture.
  ① Select clipboard picture with ◀▶.
  ② Record/stop with ▼.
- **COPY**: Copy single pictures from clipboard to card.
  (Zoom mark will not be copied.)
  ① Select clipboard picture with ◀▶ and press ▼.
  ② Select ‘YES’ with ▲▼ and press ‘MENU/SET’.
- **INITIAL DISP.**: Same as in ‘REC ON CLIPBOARD’ (above)
**Applications (View)**

### Viewing as list

**(Multi playback/Calendar playback)**

You can view 9 (or 25) pictures at once (multi playback), or view all pictures taken on a certain date (calendar playback). (To view clipboard pictures as a list → P.59)

1. **Set to**

2. **Set to multiple screen display**

   - Turn to W side
   - Picture type
     - FAVORITE ★, MOTION PICTURE ✈️, BABY 📸, PET 📸, TRAVEL DATE 🕒, WORLD TIME 🕒, DATE STAMP 📸
     - Turn lever to change between 1 screen → 9 screens → 25 screens → calendar screen.
     - To restore: Turn to T side.

   - Date recorded
   - Picture no.
   - Total no.
   - Scroll bar

3. **Select date from calendar screen**

   - Selected date
   - First picture from date

   - Month: ▲▼
   - Date: ◀▶

4. **Select picture with ▲▼ ◀▶ and press ‘MENU/SET’**

   - Displayed on 9 screens.
   - Press ‘MENU/SET’ to restore to single screen.

---

**Note**

- Pictures edited on a computer may not be displayed correctly or may show incorrect dates.
- Only one month of pictures is displayed on calendar screen. Pictures taken without clock settings are displayed with a date of January 1, 2007 (P.16).
- **When displaying pictures taken on same day on 9 screens in calendar playback,** selecting ‘ALL DELETE’ or ‘ALL DELETE EXCEPT ★’ will delete pictures taken on other days as well.
- Cannot be displayed rotated.
Applications (View) 2

Viewing motion pictures/pictures with audio

1. Set to ►

2. Select and play picture

- Motion pictures
- Pictures with audio

Operations during motion picture playback

- Hold to rewind (single frame step while paused)
- Pause (play, when already paused)
- Hold to fast forward (single frame step while paused)
- Stop

To adjust volume ► ‘VOLUME’ (P.22)

Note

- Pictures can be viewed using ‘QuickTime’ on the CD-ROM (supplied).
- Pictures taken on other devices may not be played back correctly.
- When using a high capacity card, it is possible that fast rewinding may be slower than usual.
- Playback zoom cannot be used during motion picture playback/pausing or audio playback.
- To create pictures with audio → ‘AUDIO REC.’ (P.53), ‘AUDIO DUB.’ (P.70)
Creating still pictures from motion pictures (DMC-TZ3 only)

1. During playback, pause at desired moment
   (see left for playback method)
   - To continue playback: ▲
   - To advance single frame: ◄►

**To make single picture from single frame when paused (go to step 2)**

**To make single picture from 9 surrounding frames**

- Frame step:
  - To advance by 3 frames: ▲▼
  - To advance by 1 frame: ◄►

- To change no. of frames/second: Turn further to W side (turn to T side to restore).

<table>
<thead>
<tr>
<th>PICT.MODE</th>
<th>Frames/sec</th>
<th>e.g. 15 frames: Display frames from each 1/15 second as still pictures</th>
</tr>
</thead>
<tbody>
<tr>
<td>30fps VGA</td>
<td>30→15→10→5</td>
<td>10fps VGA</td>
</tr>
<tr>
<td>10fps VGA</td>
<td>10→5</td>
<td></td>
</tr>
</tbody>
</table>

- 'RESIZE' (P.70) and 'ASPECT CONV.' (P.72) cannot be used for single pictures created from 9 screens.

2. Create still picture

- Press fully

3. Select ‘YES’

Highlight ‘YES’ in orange

- Picture size of still pictures created

<table>
<thead>
<tr>
<th>PICT.MODE</th>
<th>1 screen</th>
<th>9 screens</th>
</tr>
</thead>
<tbody>
<tr>
<td>30fps VGA</td>

<tr>
<td>30fps VGA</td>
<td>0.3M</td>
<td>1M</td>
</tr>
<tr>
<td>30fps</td>
<td>2M</td>
<td>2M</td>
</tr>
</tbody>
</table>

- ‘QUALITY’ fixed to " (P.53).
Using PLAY menu

1 DUAL DISPLAY (DMC-TZ3 only)

Displays 2 pictures vertically. Useful for comparing pictures.

1 Select ‘DUAL DISPLAY’ from PLAY menu (P.17, 18)

2 View pictures

- Selected pictures outlined in orange
- Select picture
- Move up
- Return to single screen
- Previous picture
- Next picture
- Move down
- Reduce W
- Expand T (Display zoom position for 1 sec)

- Same picture cannot be displayed in DUAL DISPLAY.

2 SLIDE SHOW

Automatically scrolls through pictures during playback. Recommended for when viewing on TV screen.

1 Select ‘SLIDE SHOW’ from PLAY menu (P.17, 18)

2 Select either ‘ALL’ or ‘★’. (Go to step 3 if ‘FAVORITE’ is OFF)

ALL: Play all
★: Play pictures set as FAVORITE (P.65)

(Screen example: DMC-TZ3)
Various playback and editing features for your pictures. 
Set mode dial to .

To select ‘START’:

- Preferences
  - Playback duration (sec) ‘MANUAL’ only available when ‘★’ selected
  - Picture change effect (not available with ‘MANUAL’)
    - Slide
    - Diagonal
    - From center to corners
    - Random effect

Set to ‘ON’ to play audio in pictures with audio

*Only while paused or during MANUAL

 Motion pictures cannot be played back in slide show.

**FAVORITE**

Mark your favorite pictures and enable the following functions.
  - Favorites-only slide show (P.64)
  - Delete all except favorites (useful for when printing in shop, etc) (P.32)

1. Select ‘FAVORITE’ from PLAY menu (P.17, 18)

2. Select ‘ON’

(Screen example: DMC-TZ3)

3. Close menu

4. Select picture (repeat)

   ★ displayed when set (not displayed when ‘OFF’).
   - Up to 999 pictures can be selected.
   - To release → Press ▲ again.

   To release all → Select ‘CANCEL’ with ▼ in step 2 → Select ‘YES’ with ▲, and press ‘MENU/SET’ → Press ‘MENU/SET’ to finish.

   - It may not be possible to set pictures taken with certain other devices as favorites.
   - Setting/release can also be made with supplied software (P.11).
Automatically rotate portrait pictures, manually rotate pictures by 90°.

**ROTATE DISP.**
Display with automatic rotation

1. Select ‘ROTATE DISP.’ from PLAY menu (P.17, 18)
2. Select ‘ON’

![Screen example: DMC-TZ3](image)

To complete Press ‘MENU/SET’.
- When set to ‘OFF’, ‘ROTATE’ also cannot be used.

- ‘ROTATE DISP.’ and ‘ROTATE’ cannot be used with motion pictures.
- ‘ROTATE’ cannot be used with protected pictures (P.69).
- Some pictures taken facing up or facing down may not be rotated automatically.
- It may not be possible to rotate pictures taken with certain other devices.
- Pictures cannot be rotated during multi playback (P.61).
- Will only be displayed rotated on computer if in Exif-compatible (P.90) environment (OS, software).

**ROTATE**
Display with manual rotation

1. Select ‘ROTATE’ from PLAY menu (P.17, 18)
2. Select picture
3. Select direction to rotate

![image]

To complete Press ‘MENU/SET’ twice.
- : Rotate 90° clockwise
- : Rotate 90° anticlockwise

**DATE STAMP**

Picture date, age (P.42, 44), or TRAVEL DATE (P.48) stamped to bottom right of picture. Ideal for regular size printing.
- Picture size will be reduced if greater than 3M.

<table>
<thead>
<tr>
<th>ASPECT RATIO</th>
<th>PICT. SIZE</th>
<th>After DATE STAMP</th>
</tr>
</thead>
<tbody>
<tr>
<td>4:3</td>
<td>7M, 5M (6M only for DMC-TZ2)</td>
<td>3M</td>
</tr>
<tr>
<td>3:2</td>
<td>7M (6M for DMC-TZ2), 4.5M</td>
<td>2.5M</td>
</tr>
<tr>
<td>16:9</td>
<td>6M (5.5M for DMC-TZ2), 3.5M</td>
<td>2M</td>
</tr>
</tbody>
</table>

- Picture will become slightly grainier.
1 Select ‘DATE STAMP’ from PLAY menu (P.17, 18)

2 Select ‘SINGLE’ or ‘MULTI’

(Screen example: DMC-TZ3)

3 Select picture

- SINGLE

- MULTI (up to 50 pictures)

4 Select items and make settings for each

5 Select whether to delete original picture (Screen varies according to picture size, etc)

- ‘YES’: Apply DATE STAMP (Original picture deleted)
- ‘NO’: Create new picture with DATE STAMP (Original picture remains)

■ To complete Press ‘MENU/SET’ twice.

- Cannot be used with pictures taken on other devices, pictures taken without setting clock, motion pictures, or pictures with audio.
- After DATE STAMP is applied, pictures cannot be resized (P.70) or trimmed, (P.71), and ASPECT CONV. (P.72), DATE STAMP and DPOF date printing settings cannot be changed of pictures.
- Use playback zoom to check stamped date (P.31).
- Characters may be cut off on certain printers.
- Do not make date printing settings in shop or on printer for pictures with date stamps. (Date printing may be overlapping.)
Picture/picture no./date printing settings can be made for when printing with DPOF print-compatible shops or printers. (Ask at shop to check compatibility)
For more information visit:
http://panasonic.jp/dc/dpof_110/white_e.htm

1 **Select ‘DPOF PRINT’ from PLAY menu** (P.17, 18)

2 **Select ‘SINGLE’ or ‘MULTI’**

   ![Screen example: DMC-TZ3](P.17, 18)

3 **Select picture and set number to print (repeat)**

   ![Select picture and set number to print](P.17, 18)

   - **SINGLE**
     - No. to print
     - Date print set
   
   - **MULTI**
     - No. to print
     - Date print set

   **Date print setting/release**: Press ‘DISPLAY’ (P.12).
   
   (Cannot be set on pictures with date stamps (P.66).)

   - **To complete** ➞ Press ‘MENU/SET’ twice.
   - **To release all** ➞ Select ‘CANCEL’ with ▼ in step 2 ➔ Select ‘YES’ with ▲, and press ‘MENU/SET’ ➔ Press ‘MENU/SET’ to finish.

- When using PictBridge-compatible printers, check settings on actual printer as these may take priority over camera settings.
- To print from built-in memory at a shop, first copy pictures to card (P.73) before making settings.
- DPOF print settings may not be made to non-DCF (P.90) files.
- Settings can only be made for one picture at a time.
- If DPOF settings have been made on another device, release these first before making settings again with this camera.
- Date printing settings will be canceled when applying date stamps (P.66).
**PROTECT**

Set protection to disable picture deletion. Prevents deletion of important pictures.

1. **Select ‘PROTECT’ from PLAY menu** (P.17, 18)
2. **Select ‘SINGLE’ or ‘MULTI’**

   (Screen example: DMC-TZ3)

3. **Select picture and make setting**

   - **SINGLE**
   - **MULTI**

   - **To release:** ▼

   - **To complete** ➔ Press ‘MENU/SET’ twice.
   - **To release all** ➔ Select ‘CANCEL’ with ▼ in step 2 ➔ Select ‘YES’ with ▲, and press ‘MENU/SET’ ➔ Press ‘MENU/SET’ to finish.

- May not be effective when using other devices.
- Formatting (P.73) will cause even protected files to be deleted.
- To cancel while releasing all: Press ‘MENU/SET’.
Add audio to previously taken pictures.

1. **Select ‘AUDIO DUB.’ from PLAY menu** (P.17, 18)

2. **Select image and start recording**
   - For files already with audio, select whether or not to overwrite existing audio with ▲▼, and press ‘MENU/SET’.

3. **Stop recording**
   - Recording will automatically end after 10 seconds, even if ▼ is not pressed.

- **To complete** ➔ Press ‘MENU/SET’ twice.
- Cannot be used with motion pictures or protected pictures (P.69).
- May not be compatible with pictures taken on other devices.

---

**RESIZE**

Picture size can be reduced to facilitate e-mail attachment and use in homepages, etc.
(Picture of minimum picture size for each aspect setting cannot be resized.)

1. **Select ‘RESIZE’ from PLAY menu** (P.17, 18)

2. **Select picture**

3. **Select size**
   - Current size
   - Size after change

4. **Select whether to delete original picture**
   - ‘YES’: Resize (Original picture deleted)
   - ‘NO’: Create new, resized picture (Original picture remains)

- **To complete** ➔ Press ‘MENU/SET’ twice.
- Cannot be used with motion pictures, pictures with audio, or pictures with date stamp.
- May not be compatible with pictures taken on other devices.
**TRIMMING**

Enlarge your pictures and trim unwanted areas.

1. **Select ‘TRIMMING’ from PLAY menu** (P.17, 18)
2. **Select picture**
3. **Select area to trim**
4. **Trim**
5. **Select whether to delete original picture**

![Images of bear pictures being trimmed]

**To complete** ➔ Press ‘MENU/SET’ twice.

- Picture quality is reduced after trimming.
- Cannot be used with motion pictures, pictures with audio, or pictures with date stamp.
- May not be compatible with pictures taken on other devices.
ASPECT CONV.

Convert pictures taken in 16:9 to 3:2 or 4:3 for printing. (P.51)
(Cannot be used with pictures not taken in 16:9.)

1. Select ‘ASPECT CONV.’ from PLAY menu (P.17, 18)
   - Select 3:2 or 4:3

2. Select picture
   - Select whether to delete original picture
     - ‘YES’: Convert aspect ratio (Original picture deleted)
     - ‘NO’: Create new picture with converted aspect ratio
       (Original picture remains)

3. Select horizontal position and convert
   - Changes to outlined size
   - Move portrait pictures using ▲▼.

4. To complete ➔ Press ‘MENU/SET’ twice.
   - Picture size may be increased after aspect ratio is changed.
   - Cannot be used with motion pictures, pictures with audio, or non-DCF files (P.90).
   - May not be compatible with pictures taken on other devices.

COPY

Copy between built-in memory and memory card, or from memory card to clipboard folder.

1. Select ‘COPY’ from PLAY menu (P.17, 18)
   - Select copy method (direction)
     - Copy all pictures (except clipboard) from built-in memory to card (go to step 4).
     - Copy 1 picture at a time from card to built-in memory.
     - Copy 1 picture at a time from card to clipboard folder (in built-in memory) (not motion pictures).
3 Select picture (for \( \text{IN} \) and \( \text{OUT} \))

4 Select ‘YES’ (Screen shown is example)

To cancel during \( \text{IN} \) \( \text{OUT} \): Press ‘MENU/SET’.

To complete ➝ Press ‘MENU/SET’ twice.
- To copy to a card, use a card with a capacity of at least 12.7MB.
- Copying pictures may take several minutes. Do not turn off power or perform other operations during copying.
- DPOF settings (P.68) will not be copied if identical folder or file numbers are present in the copy destination.
- Use ‘COPY’ on PLAY ON CLIPBOARD menu to copy clipboard pictures to card. (P.60)
- Only pictures from Panasonic digital cameras may be copied.

**FORMAT**

Use when ‘BUILT-IN MEMORY ERROR’ or ‘MEMORY CARD ERROR’ appears. This requires a sufficiently charged battery (P.14) or AC adaptor (DMW-AC5PP, sold separately). To format built-in memory, first remove memory card. (If card is inserted, only card will be formatted.)

1 Select ‘FORMAT’ from PLAY menu (P.17, 18)
2 Select ‘YES’

- All picture data, including clipboard (P.58) and protected (P.69) pictures, will be deleted.
- Do not turn off power or perform other operations during formatting.
- Formatting the built-in memory may take several minutes. Press ‘MENU/SET’ to cancel (all pictures will still be deleted).
- Consult your nearest Service Center if format cannot be successfully completed.

For USA assistance, please call: 1-800-272-7033 or send e-mail to: digitalstillcam@us.panasonic.com

For Canadian assistance, please call: 1-800-99-LUMIX (1-800-995-8649) or send e-mail to: lumixconcierge@ca.panasonic.com
Using with computer

1. **Turn on power of both camera and computer**
   - Set to any mode except [ 
     (Do not move the mode dial while connected to computer.)
   - Connect camera to computer

Preparations:
- Ensure that you have a sufficiently-charged battery, or an AC adaptor attached (DMW-AC5PP, sold separately).
- Remove memory card if wishing to use built-in memory.

- **Check socket direction and insert straight in.**
  (Damage to socket shape can lead to faulty operation.)

**Caution**
- Do not use any other USB connection cables except the supplied one.
- If using Windows 98/98SE, install USB driver software when connecting for first time.
- For more details, consult the separate ‘PC connection’ or your computer operating manual.
- Do not disconnect the USB cable while ‘ACCESS’ is displayed.
- Turn off power and disconnect USB cable before inserting or removing memory cards.

**When using USB cable with Windows 2000, use ‘Safely Remove Hardware’ application in task tray before inserting card.**
- If the battery display flashes red, cancel the connection from your computer, and disconnect the USB cable. (Recharge the battery before reconnecting.)
- To play motion pictures on your computer
  - Use the ‘QuickTime’ software on the supplied CD-ROM.
    (Installed as standard on Macintosh)
    - If using Windows 98/98SE/Me, download and install ‘QuickTime 6.5.2 for PC’ from the following website. http://www.apple.com/support/quicktime/
  - Save motion pictures to your computer before viewing.
- Only built-in memory can be accessed if connecting in CLIPBOARD mode.
Connect to your computer to save, print, and e-mail your pictures. (Using the supplied software is recommended. (P.11).)

---

**Folder and file names on computer**

### Windows
Drives are displayed in ‘My Computer’ folder.

### Macintosh
Drives are displayed on the desktop.
(Displayed as ‘LUMIX’, ‘NO_NAME’, or ‘Untitled’.)

#### Folder structure

<table>
<thead>
<tr>
<th>Built-in memory</th>
<th>Card</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>DCIM</strong> (Still/motion pictures)</td>
<td></td>
</tr>
<tr>
<td>- 100_PANA (Up to 999 pictures/folder)</td>
<td></td>
</tr>
<tr>
<td>- [Folder no.]</td>
<td>[File no.]</td>
</tr>
<tr>
<td>1</td>
<td>P1000001.JPG</td>
</tr>
<tr>
<td>2</td>
<td>P1000002.JPG</td>
</tr>
<tr>
<td>3</td>
<td>P10000999.JPG</td>
</tr>
<tr>
<td>- 101_PANA</td>
<td></td>
</tr>
<tr>
<td>- 999_PANA</td>
<td></td>
</tr>
<tr>
<td><strong>MISC</strong> (DPOF files)</td>
<td></td>
</tr>
<tr>
<td>- PRIVATE1 (clipboard pictures, P.58)</td>
<td></td>
</tr>
<tr>
<td>- MEMO0001.JPG</td>
<td></td>
</tr>
</tbody>
</table>

- To reset file or folder numbers: ‘NO. RESET’ (P.22)
- New folders are created in the following cases:
  - When pictures are taken to folders containing files numbered 999.
  - When using cards already containing the same folder number (including pictures taken with other cameras, etc)
  - When recording after performing NO. RESET (P.22)
- File may not be able to be played back on camera after changing file name.
  (Number can be changed without changing number of digits.)

#### Connecting with PTP (Picture Transfer Protocol)

If using Windows XP or Mac OS X, you can connect to your computer in PTP mode by setting to PRINT mode [3].

- Pictures can only be read on computer from camera.
- It may not be possible to read if there are 1000 or more pictures on the card.
- The message (PLEASE RE-CONNECT THE PRINTER.) will be displayed if you set to [3] after connecting to your computer. Set the mode dial to a different mode, and reconnect the camera after ‘ACCESS’ disappears.
Preparations:

- Ensure that you have a sufficiently-charged battery, or an AC adaptor (DMW-AC5PP, sold separately).
- Remove memory card to use pictures in built-in memory.
- Adjust settings on your printer (print quality, etc) as required.

1. Turn on power of both camera and printer
2. Set to 
3. Connect camera to printer
4. Operate camera to print pictures (see right)

Do not use any other USB connection cables except the supplied one.
Do not disconnect the USB cable when the cable disconnection icon \ is displayed (may not be displayed with some printers).
Turn off power and disconnect USB cable before inserting or removing memory cards.
If you have connected the camera without setting it to , remove the USB cable, and set the camera to before reconnecting. (Power may need to be reset on some printers.)
If you change to a different mode after connecting, an error message will be displayed. Set the mode dial back to , cancel any printing, and disconnect the USB cable.
To print clipboard pictures, first copy (P.60) to the memory card.
If the battery display flashes red, cancel printing and disconnect the USB cable (reconnect again after charging battery).
An orange displayed during printing indicates an error message. Check the printer.
Print may be divided into different stints if printing several pictures.
(Remaining sheets display may differ from set number.)
You can connect directly to a PictBridge-compatible printer for printing.

### Printing single pictures

1. **Select picture to print**
   - Press the navigation buttons to scroll through pictures.
   - Press the menu/SET button to select the picture to print.

2. **Select ‘PRINT START’**
   - Press the menu/SET button again.
   - Set the print options: Print with Date, Num. of Prints, Paper Size, Page Layout.

- **To cancel print**
  - Press ‘MENU/SET’

- **Print settings** → (P.78)
- **Disconnect USB cable after printing.**

### Printing multiple pictures

1. **Select ‘MULTI PRINT’**
   - Press the menu/SET button.
   - Set the print options: Print with Date, Num. of Prints, Paper Size, Page Layout.

2. **Select item**
   - Press the navigation buttons to select each picture.
   - Press the menu/SET button to select them.

- **Select ‘PRINT START’**
  - Press the menu/SET button.

- **Select ‘YES’ if print confirmation screen is displayed.**

</tbody>
</table>

- Items may not be selected if incompatible with printer.
- To print to paper sizes/layouts not supported by this camera, set to [ ] and make settings on the printer.
- (Consult your printer's operating manual.)
- e.g. To print the same picture 4 times on 1 sheet
  - Layout setting: (4 screens) Print copies: 4
  - (Setting print copies to 1 will print 4 different pictures.)

### Date printing

- If printing in shop: Make DPOF settings (P.68) and request printing ‘with dates’.
- If using printer: Make DPOF settings (P.68) and use a printer compatible with date printing.
- If using the supplied software: Set to ‘with dates’ in the print settings.
- Use the supplied software to print age for ‘BABY’ (P.42) or ‘PET’ (P.44) scene modes, or days elapsed in ‘TRAVEL DATE’ (P.48). (These cannot be requested in shops.)
- Even if DPOF settings are made, dates may not be printed with some shops or printers.
- Settings on the actual printer may be prioritized in some cases. Check the date printing settings on your printer.
- Do not set date printing on pictures onto which ‘DATE STAMP’ (P.66) is applied, otherwise date will be printed twice.
You can view pictures on a TV screen by connecting your camera to your TV with the supplied AV cable.

Preparations:
- Turn off both camera and TV.
- Set the TV aspect (P.22).

1. **Connect camera to TV**
2. **Turn on TV**
   - Set to auxiliary input.
3. **Turn on camera**
4. **Set to**

![Diagram of AV cable connection](image)

- AV cable (always use cable supplied)
- Yellow: To video socket
- White: To audio socket

- Check socket direction and insert straight in. (Damage to socket shape can lead to faulty operation.)

If your TV has an SD memory card slot, you can view still pictures by inserting a card directly.

* Pictures may not be viewable from some MultiMediaCards.

**Note**
- Do not use any other AV cables except the supplied one.
- You can view pictures on TVs in other countries (regions) which use the NTSC or PAL system when you set ‘VIDEO OUT’ in SETUP menu. Even if you set ‘VIDEO OUT’ to ‘PAL’, the output signal will still be NTSC in the recording mode.
- Some televisions may cut off the edges of pictures, or not display them full screen. Pictures rotated to portrait may be blurred slightly.
- Change picture mode settings on TV if aspect ratios are not displayed correctly on widescreen or high-definition televisions.
- Also consult TV operating manual.
- If problems such as picture flickering occur, set ‘VIDEO OUT’ (P.22) to ‘NTSC’.

<tbody>
<tr>
<td><strong>THIS MEMORY CARD IS LOCKED</strong></td>
<td>Release using the write-protect switch on the SD memory card or SDHC memory card. (P.26)</td>
</tr>
<tr>
<td><strong>NO VALID PICTURE TO PLAY</strong></td>
<td>Take pictures, or insert a different card already containing pictures.</td>
</tr>
<tr>
<td><strong>THIS PICTURE IS PROTECTED</strong></td>
<td>Release the protection before deleting, etc. (P.69)</td>
</tr>
</tbody>
</table>
| **SOME PICTURES CANNOT BE DELETED/THIS PICTURE CANNOT BE DELETED** | Non-DCF images (P.90) cannot be deleted.  
→ Save all necessary data to computer (or other device), and ‘FORMAT’ (P.73) card to delete. |
| **NO ADDITIONAL DELETE SELECTIONS CAN BE MADE** | The number of pictures that can be deleted at once has been exceeded.  
More than 999 pictures have been set as ‘FAVORITE’.  
The number of pictures than can be date stamped at once has been exceeded. |
| **CANNOT BE SET ON THIS PICTURE** | DPOF settings cannot be made for non-DCF images (P.90). |
| **PLEASE TURN CAMERA OFF AND THEN ON AGAIN** | Force has been applied to lens (or other component) and camera could not operate correctly.  
→ Turn on power again.  
(Consult the dealer or your nearest Service Center if display still remains) |
| **SOME PICTURES CANNOT BE COPIED/COPY COULD NOT BE COMPLETED** | Pictures cannot be copied in following cases.  
● Picture of same name already exists in copy destination.  
● File is not of DCF standard (P.90).  
● Picture taken or edited on a different device. |
| **BUILT-IN MEMORY ERROR** | Displayed when formatting built-in memory via computer, etc.  
→ Reformat directly using camera (P.73). |
| **MEMORY CARD ERROR** | Format cannot be recognized on this camera.  
→ Save all necessary data to computer (or other device), and ‘FORMAT’ (P.73). |
Meanings of and required responses to major messages displayed on LCD monitor.

**MEMORY CARD ERROR  PLEASE CHECK THE CARD**
- Access to card has failed.  
  → Insert card again.

**MEMORY CARD ERROR  MEMORY CARD PARAMETER ERROR**
- Card is not of SD standard. Only SDHC memory cards can be used for capacities of 4GB or greater.

**READ ERROR  PLEASE CHECK THE CARD**
- Data read has failed.  
  → Check whether card has been inserted correctly (P.15).

**WRITE ERROR  PLEASE CHECK THE CARD**
- Data write has failed.  
  → Turn off power and remove card, before re-inserting and turning on power again.  
  ● Card may possibly be damaged.

**MOTION RECORDING WAS CANCELLED DUE TO THE LIMITATION OF THE WRITING SPEED OF THE CARD**
- If ‘PICT.MODE’ is set to ‘30fps VGA’ or ‘30fps 16:9’, use a card of at least 10 MB/s (as marked on packaging, etc). (P.47)  
  ● Motion picture recording may be automatically terminated with certain cards.

**A FOLDER CANNOT BE CREATED**
- Folder numbers in use have reached 999 (P.75).  
  → Save all necessary data to computer (or other device), and ‘FORMAT’ (P.73).  
  Folder number is reset to 100 when performing ‘NO.RESET’ (P.22).

**PICTURE IS DISPLAYED FOR 4:3 TV/PICTURE IS DISPLAYED FOR 16:9 TV**
- AV cable is connected to camera.  
  ● To remove message immediately → Press ‘MENU/SET’.  
  ● To change aspect ratio → Change ‘TV ASPECT’ (P.22).  
- USB cable is only connected to camera.  
  → Message disappears when cable is also connected to another device (P.74, 76).
FAQ

Memory Card

Which cards can I use?
- See (P.15) for types, and (P.92) for recording capacities.
Using Panasonic cards is recommended.

Pictures

How can I easily send pictures to my computer?
- Connect the camera to your computer using the supplied USB cable (P.74) to copy (drag & drop) picture files to your computer hard disk. (You can also use the supplied software ‘LUMIX Simple Viewer.)
- Use a USB reader-writer.

Recording

Pictures appear dark or have poor coloring
- Adjust the exposure (P.38).
- Use W. BALANCE to adjust the coloring.
  (e.g. Use ‘AWB’ for fluorescent lighting and for incandescent lighting.)
  If this is still insufficient, try ‘Setting white balance manually’ (P.50).

Printing

How do I get the date printed?
- Use DATE STAMP before printing (P.66). (Do not make date printing settings.)
- In shop: Make DPOF settings (P.68), and request printing ‘with dates’.
- With printer: Make DPOF settings (P.68), and use a printer compatible with date printing.
- With supplied software (P.11): Select ‘with dates’ within print settings.
Try checking these items (P.84-89) first.
(Restoring menu settings to default values may solve certain problems.
Try using ‘RESET’ in SETUP menu (P.22).)

**Battery, power**

**Camera does not work even if power is turned on.**
- Battery is not inserted correctly (P.15), or needs recharging (P.14).

**LCD monitor shuts off even if power is turned on.**
- Camera is set to ‘POWER SAVE’ or ‘ECONOMY’ (P.20).
  → Press shutter button halfway to release.
- Battery needs recharging (P.14).

**Camera switches off as soon as power is turned on.**
- Battery needs recharging (P.14).
- Camera is set to ‘POWER SAVE’ (P.20).
- Camera was left with power on (battery needs recharging).
  → Use ‘POWER SAVE’ or ‘ECONOMY’ (P.20).

**Recording**

**Cannot record pictures.**
- Mode dial is not set to a recording mode.
- Built-in memory/card is full.  → Free space by deleting unwanted pictures (P.32).

**Recorded pictures look white.**
- Lens is dirty (fingerprints, etc).
  → Turn on power to extract lens barrel, and clean lens surface with a soft, dry cloth.
- Lens is foggy (P.10).

**Recorded pictures are too bright/too dark.**
- Pictures taken in dark locations, or bright subjects (snow, bright conditions, etc) occupy most of the screen. (Brightness of LCD monitor may differ from that of actual picture) → Adjust the exposure (P.38).

**2-3 pictures are taken when I press the shutter button just once.**
- Camera set to use ‘AUTO BRACKET’ (DMC-TZ3 only) or ‘BURST’ in REC menu.

**Focus not aligned correctly.**
- Not set to mode appropriate for distance to subject. (Focus range varies according to recording mode.)
- Subject outside of focus range.
- Caused by jitter or subject movement (P.39, 46).

**Recorded pictures are blurred. Optical image stabilizer ineffective.**
- Shutter speed is slower in dark locations and Optical image stabilizer is less effective.
  → Hold camera firmly with both hands, keeping arms close to body (P.24).
- Use a tripod and the self-timer (P.35) when using ‘SLOW SHUTTER’ (P.56).
Recording (continued)

Recorded pictures appear coarse, or there is interference.
- ISO sensitivity is high, or shutter speed is low.
  (Default SENSITIVITY setting is ‘AUTO’ – interference may appear with indoor pictures.)
  → Lower ‘SENSITIVITY’ (P.51).
  → Set ‘COL. MODE’ to ‘NATURAL’ (P.57)
  → Take pictures in brighter locations.
- Camera set to ‘HIGH SENS.’ scene mode (P.44).
  (Picture becomes slightly coarser in response to high sensitivity)

Brightness or coloring of recorded picture different from real life.
- Taking pictures under fluorescent lighting may require a faster shutter speed and result in slightly changed brightness or coloring, but this is not a fault.

Reddish vertical line (smear) appears during recording.
- This is a characteristic of CCD and may appear if subject contains brighter areas. Some blurring may occur around these areas, but this is not a fault.
  (This will be recorded in motion pictures, but not in still pictures.)

Motion picture recording stops midway.
- Using MultiMediaCard (not compatible with motion picture recording).
  ‘PICT. MODE’ set to ‘30fps VGA’ or ‘30fps 16:9’ (P.47).
  → Use a card of at least 10MB/s (as marked on packaging, etc).
- With some cards, access display may appear briefly after recording, and recording may end midway.

LCD monitor

Monitor sometimes shuts off even though power is on.
- Camera set to ‘ECONOMY’ (P.20).
  (LCD monitor shuts off during flash recharging)
- After recording, monitor shuts off until next picture can be recorded.
  (Maximum built-in memory usage approx. 6 sec)

Brightness is unstable.
- Aperture value is set while shutter button is pressed halfway.
  (Does not affect recorded picture.)

Monitor flickers indoors.
- Monitor may flicker after turning on (prevents influence from fluorescent lighting).

Monitor is too bright/too dark.
- Adjust LCD monitor brightness (P.20).
- Camera set to ‘POWER LCD’ or ‘HIGH ANGLE’ (P.34).
- Monitor may darken when internal temperature is low. Monitor will brighten again when temperature rises.

Black/blue/red/green dots or interference appears. Monitor looks distorted when touched.
- This is not a fault, and will not be recorded on the actual pictures, so there is no need to worry.
Date/age is not displayed.
- Current date, TRAVEL DATE (P.48), and ages in ‘BABY’ (P.42) and ‘PET’ (P.44) scene modes are only displayed for approx. 5 sec after start-up, setting changes, or mode changes. They cannot be always displayed.

Flash

No flash emitted.
- Flash set to ‘FORCED OFF’ (P.36).
- When set to ‘AUTO’, flash may not be emitted in certain conditions.
- Flash cannot be emitted in MOTION PICTURE mode, or the ‘SCENERY’, ‘NIGHT SCENERY’ (P.42), ‘FIREWORKS’, ‘STARRY SKY’, ‘AERIAL PHOTO’, and ‘HIGH SENS.’ (P.44) scene modes.

Two flashes emitted
- Red-eye reduction is active (P.36).
  (Flashes twice to prevent eyes appearing red.)

Playback

Pictures have been rotated.
- ‘ROTATE DISP.’ is set to ‘ON’ (P.66).
  (Automatically rotates pictures from portrait to landscape. Some pictures taken facing up or facing down may be interpreted as being portrait.)
  → Rotate with ‘ROTATE DISP.’ (P.66).

Cannot view pictures.
- Mode dial is not set to ( ).
- No pictures in built-in memory or card (pictures played from card if inserted, from built-in memory if not).

Folder/file number displayed as ‘-’. Picture is black.
- Picture edited on computer or taken on different device.
- Battery removed immediately after picture taken, or picture taken with low battery.
  → Use ‘FORMAT’ to delete (P.73).

Incorrect date displayed in calendar playback.
- Picture edited on computer or taken on different device.
- ‘CLOCK SET’ is incorrect (P.16).
  (Incorrect date may be displayed in calendar playback on pictures copied to computer and then back to camera, if computer and camera dates differ.)

Depending on the subject, an interference fringe may appear on the screen.
- This is called moire. This is not a malfunction.
TV, computer, printer

No image appears on TV. Image blurred or not colored.
- Not connected correctly (P.79).
- TV input setting not set to auxiliary input.
- ‘VIDEO OUT’ not set to ‘NTSC’ (P.22).

TV screen display different from LCD monitor.
- Aspect ratio may be incorrect or edges may be cut off with certain televisions.

Cannot play motion pictures on TV.
- Card is inserted into TV.
  → Connect with AV cable (supplied) and play on camera (P.79).

Picture is not displayed on full TV screen.
- Check ‘TV ASPECT’ settings (P.22).

Cannot send pictures to computer.
- Not connected correctly (P.74).
  Check whether computer has recognized camera. (See separate ‘PC connection’)

Computer does not recognize card (only reads built-in memory).
- Disconnect USB cable and reconnect with card in place.

I want to play computer pictures on my camera.
- Use the supplied software PHOTOfunSTUDIO-viewer to copy pictures from computer to camera. To save to clipboard, use software to copy from computer to card, then copy to clipboard folder with ‘COPY’ (P.73) in PLAY menu.

Cannot print when connecting to printer.
- Printer not compatible with PictBridge.
- Mode dial not set to [ ].

Edges cut off pictures when printing.
- Release any trimming or edgeless printing settings on printer before printing.
  (Consult printer operating manual.)
- Pictures taken on 16:9 ‘ASPECT RATIO’ (P.51).
  → If printing in shop, check if 16:9 sizes can be printed.
Others

Menu not displayed in desired language.

- Change ‘LANGUAGE’ setting (P.22).

Camera rattles if shaken.

- This sound is made by the lens movement and is not a fault.

Cannot set ‘AUTO REVIEW’.

- Cannot be set when any of the following are in use: ‘AUTO BRACKET’ (DMC-TZ3 only) (P.38), ‘BURST’ (P.54), ‘SELF PORTRAIT’ scene mode (P.42), MOTION PICTURE mode (P.47), or ‘AUDIO REC.’ (P.53).

Red lamp illuminated when pressing shutter button halfway in dark locations.

- ‘AF ASSIST LAMP’ set to ‘ON’ (P.56).

AF ASSIST LAMP is not illuminated.

- ‘AF ASSIST LAMP’ is set to ‘OFF’ (P.56).
- Not illuminated in bright locations or when using ‘SCENERY’, ‘NIGHT SCENERY’, ‘SELF PORTRAIT’ (P.42), ‘FIREWORKS’, or ‘AERIAL PHOTO’ (P.44) scene modes.

Camera is hot.

- Camera may become a little warm during use, but this does not affect performance or quality.

Lens makes a clicking noise.

- When brightness changes, the lens may make a clicking noise and the monitor brightness may also change, but this is due to aperture settings being made. (Does not affect recording.)

Clock is incorrect.

- Camera has been left for a long period.
  → Reset the clock (P.16).
  (Date will be set to ‘0:00 0. 0. 0’ for pictures if clock is not set.)
- Long time was taken to set clock (clock behind by this amount).

When using zoom, picture becomes slightly warped and the edges of the subject become colored.

- Pictures may be slightly warped or colored around the edges, depending on the zoom ratio, but this is not a fault (P.27).

File numbers are not recorded in sequence.

- File numbers are reset when new folders are created (P.75).

File numbers have jumped backwards.

- Battery was removed/inserted with power on.
  (Numbers may jump backwards if folder/file numbers are not correctly recorded.)
Usage cautions and notes

When in use

Camera may become warm if used for long periods of time, but this is not a fault.

- To avoid jitter, use a tripod and place in a stable location.
  (Especially when using telescopic zoom, lower shutter speeds, or self-timer)
- **Keep the camera as far away as possible from electromagnetic equipment (such as microwave ovens, TVs, video games etc.).**
  - If you use the camera on top of or near a TV, the pictures and sound on the camera may be disrupted by electromagnetic wave radiation.
  - Do not use the camera near cell phones because doing so may result in noise adversely affecting the pictures and sound.
  - Recorded data may be damaged, or pictures may be distorted, by strong magnetic fields created by speakers or large motors.
  - Electromagnetic wave radiation generated by microprocessors may adversely affect the camera, disturbing the pictures and sound.
  - If the camera is adversely affected by electromagnetic equipment and stops functioning properly, turn the camera off and remove the battery or disconnect AC adaptor (DMW-AC5PP; optional). Then reinsert the battery or reconnect AC adaptor and turn the camera on.
- **Do not use the camera near radio transmitters or high-voltage lines.**
  - If you record near radio transmitters or high-voltage lines, the recorded pictures and sound may be adversely affected.

- Do not extend the supplied cord or cable.
- Do not allow camera to come into contact with pesticides or volatile substances (can cause surface damage or coating to peel).
- Only use files from other devices if compatible with Design Rule for Camera File system (Pictures are based on DCF (Design rule for Camera File system) and Exif (Exchangeable Image File Format) standards, by Japan Electronics and Information Technology Industries Association (JEITA)).

Caring for your camera

- Disconnect battery/AC adaptor (DMW-AC5PP, sold separately).
- Do not use benzene, thinners, alcohol, kitchen detergent, or chemically treated cloth (can cause surface damage or coating to peel).
- Wipe away dust or fingerprints with soft, dry cloth. Clear stubborn stains or rain/sea water stains with a thoroughly wrung cloth, before wiping with a dry cloth.

When not using for a while

- Remove battery and card (ensure that battery is removed to prevent damage through over-discharge).
- Do not leave in contact with rubber or plastic bags.
- Store together with a drying agent (silica gel) if leaving in drawer, etc. Store batteries in cool (15 °C-25 °C (59 °F-77 °F)) places with low humidity (40 %-60 %) and no major temperature changes.
- Charge battery once per year and use completely once before storing again.
Memory cards

- To prevent damage to cards and data
  - Avoid high temperatures, direct sunlight, electromagnetic waves, and static electricity.
  - Do not bend, drop, or expose to strong impacts.
  - Do not touch connectors on reverse of card or allow them to become dirty or wet.
- When disposing of/transferring memory cards
  - If using the ‘format’ or ‘delete’ functions on your camera or computer, this only changed the file management information, and does not completely delete the data from within the memory card. When disposing of or transferring your memory cards, we recommend physically destroying the memory card itself, or using commercially available computer data erasing software to completely delete the data from the card. Data within memory cards should be managed responsibly.

Battery

- Store battery in battery carrying case after use.
- Do not use if damaged or dented (especially connectors), e.g. by dropping (can cause faults).
- The unusable battery should be discarded in accordance with battery recycling laws. Call the RBRC hotline at 1-800-822-8837 for information.
- Estimated recording capacity of 270 [300*1] pictures (P.14) is based on the following CIPA *2 standards.

*1 DMC-TZ2

CIPA standards:
- Using Panasonic SD memory card (16MB)
- Temperature 23 °C (73.4 °F), humidity 50 %
- NORMAL PICTURE mode
- LCD monitor ON
- STABILIZER (MODE1)
- First picture taken 30 sec after power turned on
- 1 picture taken per 30 sec
- Full flash used for every other picture
- Zoom operation for each picture (max. W → max. T, or max. T → max. W)
- Power turned off after each 10 pictures, battery allowed to cool

*2 CIPA = Camera & Imaging Products Association

- When charging
  - Remove any dirt on connectors with dry cloth.
  - Keep at least 1 m (3.28 feet) away from AM radio (may cause radio interference).
  - Noises may be emitted from inside, but this is not a fault.
  - Always remove from mains socket after charging (up to 0.1 W consumed if left in place).

| Voltage/capacity | 3.7 V 1000 mAh |
Optional accessories

Product name: Battery Pack
Product no.: CGA-S007A
- Performance identical to supplied battery pack.
- Recommended for taking on holiday, etc.

Product name: AC adaptor
Product no.: DMW-AC5PP

Product name: Leather Case
Product no.: DMW-CT3

Product name: Marine Case
Product no.: DMW-MCTZ3

Product name: Semi Hard Case
Product no.: DMW-CHTZ3

Product name: SDHC Memory Card
Product no.: 4 GB: RP-SDR04GU1K
Product name: SD Memory Card
Product no.: 2 GB: RP-SDK02GU1A, RP-SDR02GU1A
1 GB: RP-SDK01GU1A, RP-SDH01GU1A, RP-SDR01GU1A
512 MB: RP-SDK512U1A, RP-SDR512U1A
256 MB: RP-SDH256U1A, RP-SDR256U1A
128 MB: RP-SD128BU1A
64 MB: RP-SD064BPPA

SDHC memory cards
- New standards set in 2006 by SD Association for high-capacity memory cards exceeding 2 GB.
- Can be used on SDHC memory card-compatible devices, but not on devices only compatible with SD memory cards.

- Refer to P.14 for information about the battery charging time and the number of recordable pictures.
- Accessories and/or model numbers may vary between countries. Consult your local dealer.

TO OBTAIN ANY OF OUR DIGITAL CAMERA ACCESSORIES YOU CAN DO ANY OF THE FOLLOWING:

VISIT YOUR LOCAL PANASONIC DEALER

OR

CALL PANASONIC’S ACCESSORY ORDER LINE AT 1-800-332-5368 [6 AM-6 PM M-F, PACIFIC TIME]

OR

MAIL THIS ORDER TO: PANASONIC SERVICE AND TECHNOLOGY COMPANY
ACCESSORY ORDER OFFICE
20421 84th Avenue South South Kent, WA. 98032

In CANADA, please contact your local Dealer for more information about accessories.
Request for Service Notice (For USA Only)

Please photocopy this form when making a request for service notice. In the unlikely event this product needs service.

Request for Service Notice: • Please include your proof of purchase. (Failure to do so will delay your repair.)
• To further speed your repair, please provide an explanation of what wrong with the unit and any symptom it is exhibiting.

__________________________________________________________

Mail this completed form and your Proof of Purchase along with your unit to:
Panasonic Camera and Digital Service Center
1590 Touhy Ave.
Elk Grove Village, IL 60007
Limited Warranty (For USA Only)

Panasonic Digital Still Camera

Limited Warranty Coverage
If your product does not work properly because of a defect in materials or workmanship, Panasonic Consumer Electronics Company or Panasonic Puerto Rico, Inc. (collectively referred to as “the warrantor”) will, for the length of the period indicated on the chart below, which starts with the date of original purchase (“warranty period”), at its option either (a) repair your product with new or refurbished parts, or (b) replace it with a new or refurbished product. The decision to repair or replace will be made by the warrantor.

<table>

<td>90 (NINETY) DAYS</td>
<td>NOT APPLICABLE</td>
</tr>
</tbody>
</table>

During the “Labor” warranty period there will be no charge for labor. During the “Parts” warranty period, there will be no charge for parts. You must carry-in or mail-in your product during the warranty period. If non-rechargeable batteries are included, they are not warranted. This warranty only applies to products purchased and serviced in the United States or Puerto Rico. This warranty is extended only to the original purchaser of a new product which was not sold “as is”. A purchase receipt or other proof of the original purchase date is required for warranty service.
Carry-In or Mail-In Service
For Carry-In or Mail-In Service in the United States call 1-800-272-7033.
For assistance in Puerto Rico call Panasonic Puerto Rico, Inc. (787)-750-4300 or fax (787)-768-2910.

This warranty ONLYCOVERS failures due to defects in materials or workmanship, and DOES NOT COVER normal wear and tear or cosmetic damage. The warranty ALSO DOES NOT COVER damages which occurred in shipment, or failures which are caused by products not supplied by the warrantor, or failures which result from accidents, misuse, abuse, neglect, mishandling, misapplication, alteration, faulty installation, set-up adjustments, misadjustment of consumer controls, improper maintenance, power line surge, lightning damage, modification, or commercial use (such as in a hotel, office, restaurant, or other business), rental use of the product, service by anyone other than a Factory Service Center or other Authorized Servicer, or damage that is attributable to acts of God.

THERE ARE NO EXPRESS WARRANTIES EXCEPT AS LISTED UNDER “LIMITED WARRANTY COVERAGE”. THE WARRANTOR IS NOT LIABLE FOR INCIDENTAL OR CONSEQUENTIAL DAMAGES RESULTING FROM THE USE OF THIS PRODUCT, OR ARISING OUT OF ANY BREACH OF THIS WARRANTY. (As examples, this excludes damages for lost time, travel to and from the servicer, loss of media or images, data or other memory content. The items listed are not exclusive, but are for illustration only.) ALL EXPRESS AND IMPLIED WARRANTIES, INCLUDING THE WARRANTY OF MERCHANTABILITY, ARE LIMITED TO THE PERIOD OF THE LIMITED WARRANTY.

Some states do not allow the exclusion or limitation of incidental or consequential damages, or limitations on how long an implied warranty lasts, so the exclusions may not apply to you.

This warranty gives you specific legal rights and you may also have other rights which vary from state to state. If a problem with this product develops during or after the warranty period, you may contact your dealer or Service Center. If the problem is not handled to your satisfaction, then write to the warrantor’s Consumer Affairs Department at the addresses listed for the warrantor.

PARTS AND SERVICE WHICH ARE NOT COVERED BY THIS LIMITED WARRANTY ARE YOUR RESPONSIBILITY.

Précautions à prendre (pour le Canada)

AVERTISSEMENT :
POUR RÉDUIRE LES RISQUES D’INCENDIE, DE CHOC ÉLECTRIQUE OU DE DOMMAGES À L’APPAREIL,
• N’EXPOSEZ PAS CET APPAREIL À LA PLUIE, À L’HUMIDITÉ, À L’ÉGOUTTEMENT OU AUX ÉCLABOUSSEMENTS, ET NE PLACEZ SUR L’APPAREIL AUCUN OBJET REMPLI DE LIQUIDE, TEL UN VASE.
• UTILISEZ EXCLUSIVEMENT LES ACCESSOIRES RECOMMANDÉS.
• NE RETIREZ PAS LE COUVERCLE (OU LE PANNEAU ARRIÈRE) ; IL N’Y A AUCUNE PIÈCE RÉPARABLE PAR L’UTILISATEUR À L’INTÉRIEUR. CONFIEZ TOUTE RÉPARATION À UN TECHNICIEN DE SERVICE QUALIFIÉ.

La prise de courant doit se trouver à proximité de l’appareil et être facilement accessible.

L’appareil que vous vous êtes procuré est alimenté par une batterie au lithium-ion/polymère recyclable. Pour des renseignements sur le recyclage de la batterie, veuillez composer le 1-800-8-BATTERY.
Éloignez l’appareil le plus possible de tout dispositif émettant un champ électromagnétique (tel un four à micro-ondes, un téléviseur, une console de jeux vidéo, etc.).

- Si vous utilisez l’appareil sur le dessus ou à proximité d’un téléviseur, les images ou le son pourraient être déformés par son champ électromagnétique.
- N’utilisez pas l’appareil à proximité d’un téléphone cellulaire car l’interférence pourrait perturber les images et le son.
- Les puissants champs magnétiques produits par des haut-parleurs ou de gros moteurs électriques peuvent endommager les données ou distordre les images.
- Le champ électromagnétique créé par un microprocesseur peut nuire à l’appareil et perturber l’image et le son.
- Dans le cas où l’appareil serait perturbé par un champ électromagnétique et cesserait de fonctionner adéquatement, mettez-le hors marche et retirez-en la batterie ou débranchez l’adaptateur secteur (DMW-AC5PP, vendu séparément). Remettez la batterie en place ou rebranchez l’adaptateur secteur, puis remettez l’appareil en marche.

N’utilisez pas l’appareil à proximité d’un émetteur radio ou de lignes à haute tension.

- Si des prises de vues sont faites à proximité d’un émetteur radio ou de lignes à haute tension, les images et les sons enregistrés pourraient en être affectés.

À propos du bloc-batterie

Batterie (batterie au lithium-ion)

- Utilisez l’unité spécifiée pour recharger la batterie.
- N’utilisez la batterie avec aucun autre appareil que l’appareil spécifié.
- Évitez le contact des saletés, du sable, du liquide ou autres corps étrangers avec les bornes.
- Ne touchez pas les bornes des fiches (+ et −) avec des objets métalliques.
- Évitez de démonter, remodeler, chauffer ou jeter au feu.

Si de l’électrolyte entre en contact avec vos mains ou vos vêtements, lavez-les avec beaucoup d’eau.
Si de l’électrolyte pénètre dans vos yeux, ne les frottez pas.
Rincez-vous les yeux avec beaucoup d’eau, puis consultez un médecin.

À propos du chargeur de batterie

ATTENTION!
NE PAS INSTALLER CET APPAREIL DANS UNE BIBLIOTHÈQUE, UNE ARMOIRE OU TOUT AUTRE ESPACE CONFINÉ. S’ASSURER QUE LA VENTILATION DE L’APPAREIL EST ADÉQUATE. AFIN D’ÉVITER TOUT RISQUE DE CHOC ÉLECTRIQUE OU D’INCENDIE DÛ À UN SURCHAUFFEMENT, S’ASSURER QUE DES RIDEAUX OU TOUT OBJET QUELCONQUE NE BOUCHENT LES ÉVENTS D’AÉRATION DE L’APPAREIL.
